This includes encounter data or any other data in which the contractor paid Claims.

Specifically, the review will assess the Contractor's ability to meet the requirements set forth in the Contract and federal requirements outlined in 42 C.F.R. 438 and shall include at a minimum:

10.0 Capitation Payment Information

10.1 Monthly Payment

On or before the eighth (8th) day of each month during the term of this Contract, the Department shall remit to the Contractor the Capitation Payment specified in **Appendix A "Capitation Payment Rates"** (subject to approval of the rates by CMS and Appendix A-1) for each Enrollee determined to be enrolled for the upcoming month. The Contractor shall reconcile the capitation payment against the HIPAA 820. The Contractor shall receive a full month's capitation payment for the month in which enrollment occurs except for an Enrollee enrolled based on a determination of eligibility due to being unemployed in accordance with 45 C.F.R. 233.100. The monthly capitation payment for such an Enrollee shall be pro-rated from the date of eligibility based on unemployment. The Commonwealth's payment shall conform to KRS 45A.245.

Pursuant to Section 11.2 and because of the delay in the implementation of the Kentucky HEALTH waiver, the Contractor shall be paid the rates reflected in Appendix A-2, from July 1, 2018 to March 31, 2019. The Commonwealth will reconcile the newly certified rates with the rates paid from July 1, 2018, within 45 days of certification.

Upon the implementation of Kentucky HEALTH, the Contractor shall be paid the rates reflected in Appendix A, unless the certification for those rates has expired. If the certification of the rates has expired, the Contractor shall receive the rates reflected in Appendix A-2, until such time as new rates are certified. Upon certification of the rates by the Commonwealth's actuary, the Contractor shall receive the newly certified rates. The Commonwealth will reconcile the newly certified rates from the date of implementation of Kentucky HEALTH to the rates paid, within 45 days of certification.

All rates are subject to change based on the certification from the Contractor's actuary and approval of CMS.

The Department reserves the right, if needed, to delay the monthly payment due on or before June 8 to on or before July 8 or the next business day following July 8. If such delay is contemplated, the Department shall give notice of such intent forty-five (45) days before June 8. Whether or not the Department exercises its right to delay the June Capitation Payment, the payment of all other monthly Capitation Payments shall be made on or before the eighth day of the month in which it is due.

10.2 Payment in Full

The Contractor shall accept the Capitation Payment and any adjustments made pursuant to Section 11.2 "**Rate Adjustments**" of this Contract from the Department as payment in full for all services

to be provided pursuant to this Contract and all administrative costs associated with performance of this Contract. Enrollees shall be entitled to receive all Covered Services for the entire period for which the Department has made payment. Any and all costs incurred by the Contractor in excess of the Capitation Payment shall be borne in full by the Contractor. Interest generated through investment of funds paid to the Contractor pursuant to this Contract shall be the property of the Contractor to use for eligible expenditures under this Contract. The Contractor and Department acknowledge that contracts for Medicaid capitated rates and services are subject to approval by CMS.

Contractor may pursue any unpaid Capitation Payment thirty (30) business days after when due from the Commonwealth in accordance with KRS 45A.245.

The Contractor shall report to the Department within sixty (60) calendar days when it has identified capitation payments or other payments in excess of amounts specified in this Contract in accordance with 42 C.F.R. 438.608(c)(3).

10.3 Payment Adjustments

Effective starting with the January 2017 Monthly Capitation Payment, the Monthly Capitation Payments shall be adjusted for a period not to exceed twenty-four (24) months prior to the Monthly Capitation Payment to reflect corrections to the Enrollee Listing Report. Payments will be adjusted to reflect the automatic enrollment of eligible newborn infants. Claims for payment adjustments shall be deemed to have been waived by the Contractor if a payment request is not submitted in writing within twelve (12) months following the month for which an adjustment is requested. Waiver of a claim for payment shall not release the Contractor of its obligations to provide Covered Services pursuant to the Contract.

In the event that an Enrollee is eligible and enrolled, but does not appear on the Enrollee Listing Report, the Contractor may submit a payment adjustment request. The request is to be submitted in accordance with Report 230 automated reporting requirements.

In the event that an Enrollee is eligible and enrolled and the Contractor believes the capitation payment was in error due to underpayment, overpayment or duplicate payment, the Contractor may submit a payment adjustment request. The request is to be submitted in accordance with Report 250 automated reporting requirements.

In the event that an Enrollee does not appear on the Enrollee Listing Report, but the Department has paid the Contractor for an Enrollee, the Department may request and obtain a refund of, or it may recoup from subsequent payments, any payment previously made to the Contractor.

In the event an Enrollee appears on the Enrollee Listing Report but is determined to be ineligible, the Department may request and obtain a refund of, or it may recoup from subsequent payments, any payment previously made to the Contractor. In such instances, for each Enrollee that is determined to be ineligible, the Contractor may recover payment from any Provider who rendered services to Enrollee during the period of ineligibility. The entity to which the Enrollee is retroactively added shall assume responsibility for payment of any services provided to Enrollees during the period of adjusted eligibility.

For cases involving Enrollee ineligibility due to fraud, waste and abuse, the Department shall only recoup the capitation amount and the Contractor shall establish procedures pursuant to Section 10.4 **"Contractor Recoupment from Enrollee for Fraud, Waste and Abuse"** to recover paid Claims. Any adjustment by the Department hereunder for retroactive disenrollments of Enrollees shall not exceed twelve (12) months from the effective date of disenrollment.

10.4 Contractor Recoupment from Enrollee for Fraud, Waste and Abuse

If permitted by state and federal law, the Contractor shall request a refund from the Enrollee for all paid Claims in the event the Department has established that the Enrollee was not eligible to be enrolled through an administrative determination or adjudication of fraud. The Contractor shall, upon receipt of a completed OIG investigation of a Contractor's Enrollee that calls for administrative recoupment, send a request letter to Enrollee seeking voluntary repayment of all claims paid by contractor on behalf of Enrollee during time period Enrollee was found to be ineligible to receive services. The request letter shall include the following as provided by the Department: the reason for the Enrollee's ineligibility, time period of ineligibility, and amount paid during the period of ineligibility. The Contractor shall report, on a monthly basis, to the Commonwealth any monies collected from administrative request letters during the previous month and provide a listing of all administrative request letters sent to Enrollees(s) during the previous month. The Contractor is only required to mail the initial letter to the Enrollee requesting repayment of funds and accept repayment on behalf of the Department. The contractor is not required to address any due process issues should those arise. The Contractor shall work with Department's agent to obtain monies collected through court ordered payments. Any outstanding payments not collected within six (6) months shall be subject to be collected by the Commonwealth and shall be maintained by the Commonwealth. The foregoing provisions shall be construed to require Contractor's reasonable cooperation with the Commonwealth in its efforts to recover payments made on behalf of ineligible persons, and shall not create any liability on the part of the Contractor to reimburse amounts paid due to fraud that the Contractor has been unable to recover.

11.0 Rate Component

11.1 Calculation of Rates

The Capitation Rate has been established in accordance with 42 C.F.R. 438. The Capitation Rates are attached as **Appendix A. "Capitation Payment Rates"** and shall be deemed incorporated into this Contract and shall be binding to the Contractor and the Department, subject to CMS' approval. If CMS fails to approve a component of the rates, the capitation payment rates shall be adjusted to reflect that disapproval.

11.2 Rate Adjustments

Prospective adjustments to the rates may be required if there are mandated changes in Medicaid services to the managed care population provided through this Contract as a result of legislative, executive, regulatory, or judicial action. Changes applicable to this Contract mandated by state or federal legislation, or executive, regulatory or judicial mandates, shall take effect on the dates specified in the legislation or mandate. In the event of such changes, any rate adjustments shall be made through the Contract amendment process.

Contractors are free to negotiate provider rates and methodologies that are tied to Medicaid fee-for-service reimbursement, but such ties shall not be considered to have any direct impact on rates. Changes to fee-for-service provider reimbursement rates or methodologies which may be mandated by legislative, executive, regulatory or judicial action shall not be considered as an impact to the Contractor that must be considered in setting and/or adjusting rates unless those changes are explicitly required under this Contract.

11.3 Health Insurers' Premium Fee under the ACA

The health insurers' premium fee (HIF) under the ACA is due in September for the preceding calendar year premiums each year unless otherwise modified. If the Contractor is or will be subject to the health insurer's premium fee for the Capitation Payments being made under this or a

previously existing Managed Care Contract with the Commonwealth, the Commonwealth shall compensate the Contractor for that fee and for any federal taxes resulting from such compensation. To facilitate this payment, the Contractor shall provide the Department with the Insurer's Premium Fee assessment received from the Federal Government and the pro rata portion attributed to the Contractor's Capitation Payments under its Contract(s) for the preceding calendar year if available. In addition, the Contractor shall provide a certified statement from its Chief Financial Officer as to the effective Federal Tax Rate paid for the past five tax periods. These shall be submitted to the Department no later than September 1 of each year that the Insurer's premium fee is imposed. This payment method is contingent upon receipt of federal financial participation for the payment and CMS approval.

11.4 Medical Loss Ratio Adjustment

Beginning with State Fiscal Year 2017 and continuing annually on a state fiscal year basis thereafter, the total annual capitation payment made to the Contractor for the combined ACA and Non-ACA populations and their associated healthcare costs shall be evaluated against a ninety (90) percent Minimum Medical Loss Ratio Requirement to determine whether a Payment Adjustment is warranted (determined pursuant to **Appendix B "Medical Loss Ratio Calculation"**). A Payment Adjustment (premium refund) shall occur if:

- A. The Contractor has a Medical Loss Ratio of less than 90% but greater than or equal to eighty-six (86) percent. The Contractor shall submit a Payment Adjustment (premium refund) to the Commonwealth for seventy-five (75) percent of the difference between the dollar amount corresponding to actual medical loss ratio and the dollar amount corresponding to a 90% Medical Loss Ratio.
- B. The Contractor has a Medical Loss Ratio less than 86%. The Contractor shall submit a Payment Adjustment (premium refund) to the Commonwealth for the sum of: (a) 75% of the difference between the dollar amount corresponding to an 86% medical loss ratio and the dollar amount corresponding to a 90% loss ratio; and (b) one hundred (100) percent of the difference between the actual countable medical expenses for the Contractor and the dollar amount corresponding to an 86% medical loss ratio.

The adjustment process will begin ten (10) months after the end of each State Fiscal Year. If the Contract with the Contractor is not renewed at any time or is terminated at any time, the Medical Loss Ratio and Annual Statement will reflect an appropriately reduced number of months of experience instead of the full twelve (12) months.

As part of the financial reconciliation process described above, the Contractor shall calculate and report an MLR in a format and manner prescribed by the Department for expenses directly attributed or allocated for both the ACA and non-ACA combined beginning with State Fiscal Year 2017 and continuing annually on a state fiscal year basis thereafter. The report shall be in compliance with 42 C.F.R. 438.8(k) and shall include an attestation from the Contractor's actuary to the accuracy of the calculation in accordance with the requirements of 42 C.F.R. 438.8. The Contractor shall require Subcontractors/vendors providing claim adjudication activities to provide all underlying data associated with MLR reporting to the Contractor within 180 days of the end of the MLR reporting period or within thirty (30) days of Contractor's request for such information. The report, and any other information the Contractor wants to submit for consideration, shall be due to the Commonwealth thirty (30) calendar days after the end of the 12-month period described above.

The Commonwealth shall then determine, within 30 days of receipt of all information from all Contractors, if any adjustment is to be collected and notify the Contractor in writing. The Contractor shall then have fifteen (15) days to review the Commonwealth's findings and remit payment to the Commonwealth. Items for reconciliation, including non-claim specific items, are further described in **Appendix B "Medical Loss Ratio Calculation"** of this Contract. The calculation of the Medical Loss Ratio shall comply with the requirements of 42 C.F.R. 438.8. The Contractor shall cooperate

with the Department or its contractor by supplying all clarifications and answers to inquiries within the requested timeframe. If the Contractor fails to submit information or respond to a Department request regarding Medical Loss Ratio Calculation within the requested timeframe, it shall be subject to a penalty of \$500.00 per day until the information or response is received.

If the Department makes a retroactive change to a capitation payment in a MLR reporting year that has already been submitted, upon the Department's request, the Contractor shall recalculate the MLR for any year affected by the change and submit a new MLR report meeting the applicable requirements

11.5 Physician Incentive Plans

A template for any compensation arrangement between the Contractor and a physician, or physician group as that term is defined in 42 C.F.R. § 417.479(c); or between the Contractor and any other Primary Care Providers within the meaning of this Contract; or between the Contractor and any other Subcontractor (or like entity) shall be submitted to the Department for approval prior to its implementation. Approval is preconditioned on compliance with all applicable federal and Commonwealth laws and regulations and subject to Section 4.4 "**Approval of Department.**" The Contractor shall provide information to any Enrollee upon request about any Physician Incentive Plan and/or any payments to Provider made pursuant to an incentive arrangement under this Section to a provider as required by applicable state or federal law.

11.6 Contractor Provider Payments

If a Contractor includes a Physician Incentive Plan, the activities included shall comply with requirements set forth in 42 C.F.R. 422.208 and 42 C.F.R. 422.210. The Disclosures to the Department for Contractors with Physician Incentive Plans shall include the following:

- A. The Contractor shall report whether services not furnished by a physician/group are covered by the incentive plan. No further disclosure is required if the Physician Incentive Payment does not cover services not furnished by a physician/group.
- B. The Contractor shall report type of incentive arrangement, e.g. withhold, bonus, capitation.
- C. The Contractor shall report percent of withhold or bonus (if applicable).
- D. The Contractor shall report panel size, and if patients are pooled, the approved method used.
- E. If the physician/group is at substantial financial risk, the Contractor shall report proof the physician/group has adequate stop loss coverage, including amount and type of stop-loss.

11.7 Co-Pays

If Contractor implements co-pays, those co-pays shall not exceed the Department's Fee for Service co-pays. The Contractor shall report on the Enrollees usage and co-payments, including recognition of the accumulation indicators for maximum out-of-pocket co-payments and cost sharing capitations per period that are shared through system files transmissions. The co-payment requirements for the Medicaid Program can be found in 907 KAR 1:604. Any cost sharing imposed by the Contractor shall be in accordance with 42 C.F.R. §§447.50 through 447.82.

Whether the Contractor imposes such co-pays or not, the actuarial value of the co-pays will be reflected in the Capitation Rate.

The Department may, at its discretion, mandate the imposition or collection of co-pays with at least ninety (90) days written notice to the Contractor.

12.0 Risk Adjustments

12.1 Purpose for Risk Adjustments

Risk adjustment uses information on an Enrollee's medical conditions, as reported in claims data, to predict health care costs and adjust payments to MCOs. Risk adjustment helps ensure payments to MCOs are more equitable and mitigates the impact of selection bias, thus protecting MCO solvency and reducing incentives for plans to avoid high-risk individuals. Risk adjustment is designed to be revenue neutral to the State.

12.2 Risk Adjustment Method

The capitation rates will be risk-adjusted on a prospective basis as described below:

A. Risk Adjustment Model

The CDPS + Rx model will be used. In general, the most recent available version of the model will be applied, though there may be circumstances in which an older version is preferred. Concurrent weights will be used to develop the risk profiles of Enrollees.

B. Calibration of Risk Weights

The Department shall phase in the calibration of risk weights over a fifteen (15) month period, with the full implementation of Kentucky-specific weights to be initiated on October 1, 2019.

C. Rate Cells excluded from Risk Adjustment

Dual Eligible rate cells are excluded from the risk adjustment calculation. Additional rate cells may also be excluded depending on changes in rate cell structure. Examples may include delivery payment and newborns.

D. Minimum Eligibility to Receive Risk Score

The minimum length of eligibility, which eligibility need not be continuous, during the risk analysis period in order for risk score to be considered in the MCO risk adjustment calculation is three months. Exceptions may apply for newborns and pregnant women.

Enrollees who do not receive a risk score shall be assigned a risk score that reflects the average risk for their rate cell, region, and MCO. Risk scores for these enrollees may be adjusted to reflect the individuals' demographic scores.

E. Risk Score Calculation

Twelve months of managed care encounter and fee-for-service claims data, excluding laboratory and x-ray claims, will be run through the risk model to calculate a risk score for each individual. Months of Medicaid eligibility during the 12-month analysis period are also calculated. Individual risk scores will be attributed to each MCO based on the MCO in which the person is enrolled as of a specific point in time. Raw risk scores and Enrollee months will be aggregated by rate cell, and attributed to the MCO, and relative risk adjustment scores will be calculated.

F. Payment Adjustment

Payment adjustments will be calculated by applying the risk adjustment scores to the negotiated capitation rates by rate cell.

G. Provider Settlements (Supplemental Pass-Through Payments)

Since MCO provider settlement obligations are a fixed amount each month, the per capita value of the settlement obligations is removed from each MCO's contracted rates prior to applying risk adjustment, and are added back in after applying risk adjustment.

H. Timing and Frequency

In general, 12 months of recent, reasonably complete data will be analyzed to develop the risk scores. Risk measurement periods will be set to provide a reasonable amount of claims runout. The Department will make updates to the risk scores at least twice per state fiscal year, either in the form of a full Enrollee re-score or an update for changes in Enrollee distributions, with all calculations including a budget neutrality adjustment.

13.0 Contractor's Financial Security Obligations

13.1 Solvency Requirements and Protections

The Contractor shall be subject to requirements contained in KRS Chapter 304 and related administrative regulations regarding protection against insolvency and risk-based capital requirements. In addition, pursuant to KRS 304.3-125, the Commissioner has authority to require additional capital and surplus if it appears that an insurer is in a financially hazardous condition.

The Contractor shall cover continuation of services to Enrollees during insolvency, for the duration of the period for which payment has been made, as well as for inpatient admissions up until discharge.

In the event of the Contractor's insolvency, the Contractor shall not hold its Enrollees liable, except in instances of Enrollee fraud:

- A. For the Contractor's debts;
- B. For the covered services provided to the Enrollee, for which the Department does not pay the Contractor;
- C. For the covered services provided to the Enrollee for which the Department or the Contractor does not pay the individual or health care provider that furnishes the services under a contractual, referral, or other arrangement; and
- D. For covered services furnished under a contract, referral, or other arrangement, to the extent that those payments are in excess of the amount that the Enrollee would owe if the Contractor provided the services directly.

13.2 Contractor Indemnity

In no event shall the Commonwealth, FAC, the Department or Enrollee be liable for the payment of any debt or fulfillment of any obligation of the Contractor or any Subcontractor to any Subcontractor, supplier, Out-of-Network Provider or any other party, for any reason whatsoever, including the insolvency of the Contractor or any Subcontractor. The Contractor agrees that any Subcontract will contain a hold harmless provision.

The Contractor shall indemnify, defend, save and hold harmless the Commonwealth, FAC, the Department, its officers, agents, and employees (collectively, the "Indemnified Parties") from all

claims, demands, liabilities, suits, judgments, or damages, including court costs and reasonable attorney fees made or asserted against or assessed to the Indemnified Parties (collectively the "Losses"), arising out of or connected in any way with this Contract or the performance or nonperformance by the Contractor, its officers, agents, employees; and suppliers, Subcontractors, or Providers, including without limitation any claim attributable to:

- A. The improper performance of any service, or improper provision of any materials or supplies, irrespective of whether the Department knew or should have known such service, supplies or materials were improper or defective;
- B. The erroneous or negligent acts or omissions, including without limitation, disregard of federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such erroneous or negligent acts;
- C. The publication, translation, reproduction, delivery, collection, data processing, use, or disposition of any information to which access is obtained pursuant to this Contract in a manner not authorized by this Contract or by federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such publication, translation, reproduction, delivery, collection, data processing, use, or disposition; or
- D. Any failure to observe federal or Commonwealth law or regulations, including but not limited to, insurance and labor laws, irrespective of whether the Department knew or should have known of such failure.

Upon receiving notice, the Department shall give the Contractor written notice of any claim made against the Contractor for which the Indemnified Parties are entitled to indemnification, so that the Contractor shall have the opportunity to appear and defend such claim. The Indemnified Parties shall have the right to intervene in any proceeding or negotiation respecting a claim and to procure independent representation, all at the sole cost and expense of the Indemnified Parties. Under no circumstances shall the Contractor be deemed to have the right to represent the Commonwealth in any legal matter without express written permission from FAC. Notwithstanding the above, Contractor shall have no obligation to indemnify the Indemnified Parties for any losses due to the negligent acts or omissions or intentional misconduct of the Indemnified Parties.

13.3 Insurance

The Contractor shall secure and maintain during the entire term of the Contract, and for any additional periods following termination of the Contract during which it is obligated to perform any obligations pursuant to this Contract, original, prepaid policies of insurance, in amounts, form and substance satisfactory to FAC, and non-cancelable except upon thirty (30) days prior written notice to FAC, providing coverage for property damage (all risks), business interruption, comprehensive general liability, motor vehicles, workers' compensation and such additional coverage as is reasonable or customary for the conduct of the Contractor's business in the Commonwealth.

13.4 Advances and Loans

The Contractor shall not, without thirty (30) days prior written notice to and approval by the Department, make any advances to a related party or Subcontractor. The Contractor shall not, without similar thirty (30) day prior written notice and approval, make any loan or loan guarantee to any entity, including another fund or line of business within its organization. Such approval is subject to Section 4.4 **"Approval of Department."** Written notice is to be submitted to the Department and if applicable to DOI. The prohibition on advances to Subcontractors contained in this subsection shall not apply to Capitation Payments or payments made by the Contractor to Contractor's Network for provision of Covered Services.

13.5 Provider Risks

If a Provider assumes substantial financial risk for contracted services, the Contractor shall ensure that the Provider has adequate stop-loss protection. The Contractor shall provide the Department proof the Provider has adequate stop-loss coverage, including an amount and type of stop-loss.

14.0 Third Party Resources

14.1 Coordination of Benefits (COB)

The Contractor shall actively pursue, collect and retain all monies available from all available resources for services to Enrollees under this Contract except where the amount of reimbursement the Contractor can reasonably expect to receive is less than estimated cost of recovery.

Cost effectiveness of recovery is determined by, but not limited to, time, effort, and capital outlay required in performing the activity. The Contractor shall specify the threshold amount or other guidelines used in determining whether to seek reimbursement from a liable third party, or describe the process by which the Contractor determines seeking reimbursement would not be cost effective. The Contractor shall provide the guidelines to the Department for review and approval.

COB collections are the responsibility of the Contractor or its Subcontractors. Subcontractors shall report COB information to the Contractor. Contractor and Subcontractors shall not pursue collection from the Enrollee but directly from the third party payer. The Contractor shall only recoup payments to providers if the third party payer is Medicare. Access to Covered Services shall not be restricted due to COB collection. The Contractor will be subject to penalty should any Enrollee be denied access to Covered Services due to COB collection.

The Contractor shall maintain records of all COB collections. The Contractor shall demonstrate that appropriate collection efforts and appropriate recovery actions were pursued. The Department has the right to review all billing histories and other data related to COB activities for Enrollees. 14.2 Third Party Liability

By law, Medicaid is the payer of last resort and as a result shall be used as a source of payment for covered services only after all other sources of payment have been exhausted. If an Enrollee has resources available for payment of expenses associated with the provision of Covered Services, other than those which are exempt under Title XIX of the Social Security Act, such resources are primary to the coverage provided by the Contractor, pursuant to this Contract, and must be exhausted prior to payment by the Contractor. The Capitation Rate set forth in this Contract has been adjusted to account for the primary liability of third parties to pay such expenses. The Contractor shall be responsible for determining the legal liability of third parties to pay for services rendered to Enrollees pursuant to this Contract. The Contractor shall maintain a current TPL Resource File which contains the Enrollee's current TPL information including coverage that has ended for the Enrollee. All funds recovered by the Contractor from Third Party Resources shall be treated as income to the Contractor to be used for eligible expenses under this Contract. Except as provided in Section 42, the Contractor and all Providers in the Contractor's Network are prohibited from directly receiving payment or any type of compensation from the Enrollee, except for Enrollee co-pays or deductibles from Enrollees for providing Covered Services. Enrollee co-

pay, co-insurance or deductible amounts cannot exceed amounts specified in 907 KAR 1:604. Co-pays, co-insurance or deductible amounts may be increased only with the approval of the Department.

- A. Assign, in writing, his/her rights to the Contractor for any medical support or other Third Party Payments for medical services paid for by the Contractor; and
- B. Cooperate in identifying and providing information to assist the Contractor in pursuing third parties that may be liable to pay for care and services.

42 C.F.R. 433.138 requires the Contractor be responsible for actively seeking and identifying third party resources, i.e. health or casualty insurance, liability insurance and attorneys retained for tort action, through contact with the Enrollees, participating providers, and the Medicaid Agency. However, the Commonwealth may direct the Contractor to refrain from actively seeking and identifying third party resources for services that are covered only by the Medicaid program, as identified by the Department.

42 C.F.R. 433.139 requires the Contractor be responsible to assure that the Medicaid Program is the payer of last resort when other Third Party Resources are available to cover the costs of medical services provided to Medicaid Enrollees. When the Contractor is aware of other Third Party Resources, the Contractor shall avoid payment by “cost avoiding” (denying) the Claim and redirecting the provider to bill the other Third Party Resource as a primary payer. If the Contractor does not become aware of another Third Party Resource until after the payment for service, the Contractor is responsible to seek recovery from the Third Party Resource on a post-payment basis. See **Appendix C. “Third Party Payments/Coordination of Benefits.”** The Department or its agent will audit the Contractor’s Third Party practices and collections at least every six (6) months.

The Contractor shall respond to Enrollee and provider requests for COB or TPL updates according to the following timelines:

20.4 Performance Improvement Projects (PIPs)

Performance Improvement Projects (PIPs) are intended to address and achieve significant (demonstrable) and sustained improvement in focus areas over time. The projects are designed to measure diverse aspects of care, and care provided to diverse populations of Enrollees. The Contractor must ensure that the chosen topic areas for PIP's are not limited to only recurring, easily measured subsets of the health care needs of its Enrollees. PIPs shall also address the specific clinical needs of Enrollees with conditions and illnesses that have a higher prevalence in the enrolled population. Non-clinical PIPs should address improving the quality, availability, and accessibility of services provided by the Contractor to Enrollees and Providers. Such aspects of service should include, but not be limited to availability, accessibility, cultural competency of services, and complaints, grievances, and appeals.

- E. Were the results and conclusions made available to Enrollees, providers and any other interested bodies;
- F. Is there an executive summary;
- G. How could findings be reported to a broad audience of relevant stakeholders or the general public; and
- H. Do illustrations – graphs, figures, tables – convey information clearly.

Performance reporting shall utilize standardized indicators appropriate to the performance improvement area. Minimum performance levels shall be specified for each performance improvement area, using standards derived from regional or national norms or from norms established by an appropriate practice organization. The norms and/or goals shall be pre-determined at the commencement of each performance improvement goal and the Contractor shall be monitored for achievement of demonstrable and/or sustained improvement.

The Contractor shall validate if improvements were sustained through periodic audits of the relevant data and maintenance of the interventions that resulted in improvement. The timeframes for reporting:

- A. Project Proposal including baseline measurement – due September 1 of Contract year. Proposal with baseline measurement is required upon submission of completed PIP. If PIP identified as a result of Department/EQRO review, the project proposal shall be due sixty (60) days after notification of requirement.

If Interqual does not cover a behavioral health service, the Contractor shall adopt the following standardized tools for medical necessity determinations -- for adults: Level of Care Utilization System (LOCUS); for children: Child and Adolescent Service Intensity Instrument (CASII) or the Child and Adolescent Needs and Strengths Scale (CANS); for young children; Early Childhood Service Intensity Instrument (ECSII).

If it is determined that one of the medical necessity criteria named in this section is not available or not specifically addressed for a service or for a particular population, the Contractor shall submit its proposed medical necessity criteria to the Department for approval subject to Section 4.4 **"Approval of Department"**. The Department may also, at its discretion, require the use of other criteria it creates or identifies for services or populations not otherwise covered by the named criteria in the above paragraph. The Contractor will be given ninety (90) days to implement criteria the Department may otherwise require.

The Contractor shall have in place mechanisms to check the consistency of application of review criteria. The written clinical criteria and protocols shall provide for mechanisms to obtain all necessary information, including pertinent clinical information, and consultation with the attending physician or other health care provider as appropriate. The Medical Director and Behavioral Health Director shall supervise the UM program and shall be accessible and available for consultation as needed. Criteria approved under a prior contract must be resubmitted to ensure it meets the requirements of this Contract.

Decisions to deny a service authorization request or to authorize a service in an amount, duration, or scope that is less than requested, shall be made by a physician who has appropriate clinical expertise in treating the Enrollee's condition or disease. The clinical reason for the denial, in whole or in part, specific to the Enrollee shall be cited. Each subcontract must provide that, consistent with 42 C.F.R. Sections 438.6(h) and 422.208, compensation to individuals or entities that conduct UM activities is not structured so as to provide incentives for the individual or entity to deny, limit, or discontinue medically necessary services to an Enrollee.

The program shall identify and describe the mechanisms to detect under-utilization as well as over-utilization of services. The written program description shall address the procedures used to evaluate Medical Necessity, the criteria used, information sources, timeframes and the process used to review and approve the provision of medical services. The Contractor shall evaluate Enrollee satisfaction (using the CAHPS survey) and provider satisfaction with the UM program as part of its satisfaction surveys. - E. For cases in which a Provider indicates, or the Contractor determines, that following the standard timeframe could seriously jeopardize the Enrollee's life or health or ability to attain, maintain or regain maximum function, the Contractor shall make an expedited authorization decision and provide notice as expeditiously as the Enrollee's health condition requires and no later than two (2) business days after receipt of the request for service.
- F. The Contractor shall give notice on the date that the time frames expire when service authorization decisions are not reached within the timeframes for either standard or expedited service authorizations. If the Contractor approves the Enrollee's request, the assignment will occur no later than the first day of the second month following the month of the request.

PCPs shall have the right to request an Enrollee's Disenrollment from his/her practice and be reassigned to a new PCP in the following circumstances: incompatibility of the PCP/patient relationship; Enrollee has not utilized a service within one year of enrollment in the PCP's practice and the PCP has documented unsuccessful contact attempts by mail and phone on at least six (6) separate occasions during the year; or inability to meet the medical needs of the Enrollee.

Transfer requests shall not be based on race, color, national origin, handicap, age or gender. The Contractor shall have authority to approve all transfers.

The initial PCP shall serve until the new PCP begins serving the Enrollee, barring ethical or legal issues. The Enrollee has the right to file a grievance regarding such a transfer.

Nothing in this section prevents the Contractor from providing the Department with information the Contractor believes indicates that the Enrollee's eligibility has changed.

27.2 Assignments of New Enrollees

Due consideration shall be given to the following when making assignments for Enrollees who do not select an MCO when enrolling:

- A. Keeping the family together - Assign Enrollees of a family to the same MCO.
- B. Continuity of Care - Preserve the family's pre-established relationship with providers to the extent possible.
- C. Robust MCO Competition - equitable distribution of the participants among the MCOs.

In order to ensure equitable distribution of Enrollees there will be a MCO maximum threshold and a minimum threshold assigned. Those thresholds shall be developed prior to July 1, 2015, the start date of this Contract. If the Contractor was participating in the Managed Care Program as an MCO prior to entering into this Contract, its current enrollment shall not be reassigned on July 1, 2015. However, the thresholds developed for July 1, 2015 shall apply.

After June 30, 2015, the Department shall follow the steps below for the purpose of equitable distribution.

- A. All managed care Enrollees of a Medicaid family will be assigned to the same MCO.
- B. Continuity of Care – The Department will use Claims history to determine the most recent, regularly visited primary care physicians (PCP). The top three PCP providers for each Enrollee shall be considered. This determination will be based on the last 12 months of history with relative weights based on the time period of the visits. The weight shall be 1 thru 3 with 3 being assigned to visits in the most recent four months; 1 being assigned to visits in the earliest four-month period, and 2 being assigned to the visits in the middle four-month period. Next, each Enrollee's top three PCP Providers shall be matched against the provider network of the Medicaid Region's MCOs and a "MCO network suitability score" shall be assigned to each family Enrollee.
- C. In order to give due consideration to children and individuals with specialized health care needs it is important that all family Enrollees are not treated equally in developing the family unit's overall MCO score. The ratio between the numbers of children eligible for managed care versus the number of adults eligible for managed care is almost 1.9 to 1. Therefore, the "MCO network suitability score" for a child shall be further multiplied by a factor of 1.9. Similarly, individuals with special health care needs (identified as SSI Adults, SSI Children, and Foster Care) shall have their score adjusted by a factor of 1.6 which represents the relative cost of these individuals relative to the cost of adults over 18. In the case of SSI Children and Foster Care both the child factor (1.9) and the special needs factor (1.6) shall be applied. After these adjustments, each family Enrollee's individual "MCO network suitability score" shall be added together to determine the family unit's "MCO network suitability score"
- D. The family shall be assigned to the MCO with the highest "MCO network suitability score" unless that MCO has exceeded its maximum threshold. Two maximum thresholds are defined for each Medicaid Region: Families and Children, and Others. If the family unit has both categories of individuals, then both thresholds shall apply. In a scenario where the applicable threshold(s) are exceeded, the family shall be assigned to the MCO with next highest score. If a tie exists between two eligible MCOs, see the following step used.
- E. In scenarios where multiple eligible MCOs have the same score for the family "MCO network suitability score", the MCOs which are under the minimum threshold shall be given preference, until the MCO reaches the minimum threshold.
- F. In scenarios where multiple MCOs have the same score for the family "MCO network suitability score" and all MCOs are above the minimum threshold, the family shall be assigned on a rotation basis.

27.3 General Enrollment Provisions

The Department shall notify the Contractor of the Enrollees to be enrolled with the Contractor. The Contractor shall provide for a continuous open enrollment period throughout the term of the Contract for newly eligible Enrollees. The Contractor shall not discriminate against potential Enrollees on the basis of an individual's health status, need for health services, race, color, religion, sex, sexual orientation, gender identity, disability or national origin, and shall not use any policy or practice that has the effect of discriminating on the basis of an Enrollee's health status, need for health services, race, color, religion, sex, sexual orientation, gender identity, disability or national origin.

29.0 Provider Network

29.1 Network Providers to Be Enrolled

In accordance with 42 C.F.R. 438.206(b)(1)(i)-(v), when establishing and maintaining its network of Providers, the Contractor shall consider the anticipated Medicaid enrollment; the expected utilization of services, given the characteristics and health care needs of the specific Medicaid populations enrolled with the Contractor; the numbers and types (their training, experience, and specialization) of Providers required to provide the necessary Medicaid services; the numbers of network Providers who are not accepting new Medicaid patients; and the geographic location of Providers and its Enrollees, considering distance, travel time, the means of transportation ordinarily used by its Enrollees, and whether the location provides physical access for its Enrollees with disabilities. The Contractor shall maintain, by written agreements, its network of Providers.

The Contractor's Network shall include Providers from throughout the provider community. The Contractor shall comply with the any willing provider statute as described in 907 KAR 1:672 or as amended and KRS 304.17A-270. Neither the Contractor nor any of its Subcontractors shall require a Provider to enroll exclusively with its network to provide Covered Services under this Contract as such would violate the requirement of 42 C.F.R. Part 438 to provide Enrollees with continuity of care and choice. The Contractor shall enroll at least one (1) Federally Qualified Health Centers (FQHCs) and one (1) Rural Health Clinic into its network for each Medicaid Region where available and at least one teaching hospital.

Enrollment forms shall include those used by the Kentucky Medicaid Program as pertains to the provider type. The Contractor shall use such enrollment forms as required by the Department.

The Department will continue to enroll hospitals, nursing facilities, home health agencies, independent laboratories, preventive health care providers, FQHC, RHC and hospices. The Medicaid provider file will be available for review by the Contractor so that the Contractor can ascertain the status of a Provider with the Medicaid Program and the provider number assigned by the Kentucky Medicaid Program.

Providers performing laboratory tests are required to be certified under the CLIA. The Department will continue to update the provider file with CLIA information from the CASPER/QIES file formally known as OSCAR provided by the Centers for Medicare & Medicaid Services for all appropriate providers. This will make laboratory certification information available to the Contractor on the Medicaid provider file.

The Contractor shall have written policies and procedures regarding the selection and retention of Contractor's Network. The policies and procedures regarding selection and retention must not discriminate against providers who service high-risk populations or who specialize in conditions that require costly treatment or based upon that Provider's licensure or certification.

If the Contractor declines to include individuals or groups of providers in its network, it shall give affected providers written notice of the reason for its decision.

The Contractor must offer participation agreements with currently enrolled Medicaid providers who have received electronic health record incentive funds who are willing to meet the terms and conditions for participation established by the Contractor.

A provider joining the Contractor's Network shall meet the Medicaid provider enrollment requirements set forth in the Kentucky Administrative Regulations and in the Medicaid policy and procedures manual for fee-for-service providers of the appropriate provider type.

The Contractor shall provide written notice to Providers not accepted into the network along with the reasons for the non-acceptance. A provider cannot enroll or continue participation in the

Contractor's Network if the provider has active sanctions imposed by Medicare or Medicaid or SCHIP, if required licenses and certifications are not current, if money is owed to the Medicaid Program, or if the Office of the Attorney General has an active fraud investigation involving the Provider or the Provider otherwise fails to satisfactorily complete the credentialing process. The Contractor shall obtain access to the National Practitioner Database as part of their credentialing process in order to verify the Provider's eligibility for network participation. Federal Financial Participation is not available for amounts expended for providers excluded by Medicare, Medicaid, or SCHIP, except for Emergency Medical Services.

The Contractor will have access to the Department's Medicaid provider file either by direct on-line inquiry access, by electronic file transfer, or by means of an extract provided by the Department. The Contractor shall use the Medicaid Provider number as the provider identifier when transmitting information or communicating about any provider to the Department or its Fiscal Agent. When the Contractor has submitted the required data in the transmission of the provider file indicating inclusion in the Contractor's Network, the Department will enter the provider number on the master provider file and the transmitted data will be loaded to the provider file. The Contractor will receive a report within two weeks of transactions being accepted, suspended or denied.

The Contractor agrees, upon the request of the Department, to submit to the Department claims-level cost data for payment verification purposes. Contractor will work with the Department to assure that information is provided to allow for provider entities to remit the state matching portion of the payments to the Department, as applicable.

30.12 Independence of Provider Reimbursement Rates and Methodologies

Unless explicitly stated elsewhere in this Contract, the Department does not direct the Contractor's expenditures for services provided under this Contract, and reimbursement rates and methodologies for services provided under this Contract are at the sole discretion of the Contractor.

30.13 Notice to Providers on Change of Reimbursement

The Contractor shall give at least thirty (30) days written notice to Providers prior to any change in payment structure or reimbursement amount. The written notice must contain clear and detailed information about the change. Changes in reimbursement to current Covered Services shall not be retroactive. The Contractor is responsible for updating their system to accept new codes covered

by The Department and delete expired codes regardless of when they are added to or deleted from The Department's fee schedules.

31.0 Covered Services

31.1 Medicaid Covered Services

The Contractor shall provide Covered Services in an amount, duration, and scope that is no less than the amount, duration, and scope furnished Medicaid recipients under fee-for-service program, and for Enrollees under the age of twenty-one (21) as set forth in 42 C.F.R. 441 Subpart B; that are reasonably expected to achieve the purpose for which the services are furnished; enables the Enrollee to achieve age-appropriate growth and development; and enables the Enrollee to attain, maintain, or regain functional capacity. The Contractor shall not arbitrarily deny or reduce the amount, duration, or scope of a required service solely because of the diagnosis, type of illness, or condition.

The Contractor may establish measures that are designed to maintain quality of services and control costs and are consistent with its responsibilities to Enrollees; may place appropriate limits on a service on the basis of criteria applied under the Medicaid State Plan, and applicable regulations, such as medical necessity; and place appropriate limits on a service for utilization control, provided the services furnished can reasonably be expected to achieve their purpose, services supporting individuals with ongoing or chronic conditions or who require long-term services and supports are authorized in a manner that reflects the Enrollee's ongoing need for such services and supports, and family planning services are provided in a manner that protects and enables the Enrollee's freedom to choose the method of family planning.

The Contractor shall provide, or arrange for the provision of Covered Services to Enrollees in accordance with the state Medicaid plan, state regulations, and policies and procedures applicable to each category of Covered Services. The Contractor shall ensure that the care of new Enrollees is not disrupted or interrupted. The Contractor shall ensure continuity of care for new Enrollees receiving health care under fee for service prior to enrollment in the Plan. **Appendix H. "Covered Services"** shall serve as a summary of currently Covered Services that the Contractor shall be responsible for providing to Enrollees. However, it is not intended, nor shall it serve as a substitute for the more detailed information relating to Covered Services which is contained in the State Medicaid Plan, applicable administrative regulations governing Kentucky Medicaid services and individual Medicaid program services manuals incorporated by reference in the administrative regulations.

After the Execution Date, to the extent a new or expanded Covered Service is added by the Department to Contractor's responsibilities under this Contract, ("New Covered Service") the financial impact of such New Covered Service will be evaluated from an actuarial perspective by the Department, and Capitation Rates to be paid to Contractor hereunder will be adjusted, if necessary, accordingly to Sections 11.2 "**Rate Adjustments**" and 41.3 "**Amendments**". The determination that a Covered Service is a New Covered Service is at the discretion of the Department. At least ninety (90) days before the effective date of the addition of a New Covered Service, the Department will provide written notice to Contractor of any such New Covered Service and any adjustment to the Capitation Rates herein as a result of such New Covered Service. This notice shall include: (i) an explanation of the New Covered Service; (ii) the amount of any adjustment to Capitation Rates herein as a result of such New Covered Service; and (iii) the methodology for any such adjustment.

The Contractor may provide, or arrange to provide, services in addition to the services described above provided quality and access are not diminished, the services are Medically Necessary health services and cost-effective. The cost for these additional services shall not be included in the Capitation Rate. The Contractor shall notify and obtain approval from Department for any new

services prior to implementation. The Contractor shall notify the Department by submitting a proposed plan for additional services and specify the level of services in the proposal.

For any Medicaid service provided by the Contractor that requires the completion of a specific form (e.g., hospice, sterilization, hysterectomy, or abortion), the form shall be completed according to the appropriate Kentucky Administrative Regulation (KAR). The Contractor shall require its Subcontractor or Provider to retain the form in the event of audit and a copy shall be submitted to the Department upon request.

The Contractor shall not prohibit or restrict a Provider from advising an Enrollee about his or her health status, medical care, or treatment, regardless of whether benefits for such care are provided under the Contract, if the Provider is acting within the lawful scope of practice.

If the Contractor is unable to provide within its network necessary **Covered Services**, it shall timely and adequately cover these services out of network for the Enrollee for as long as Contractor is unable to provide the services in accordance with 42 C.F.R. 438.206. The Contractor shall coordinate with out-of-network providers with respect to payment. The Contractor will ensure that cost to the Enrollee is no greater than it would be if the services were provided within the Contractor's Network.

An Enrollee who has received Prior Authorization from the Contractor for referral to a specialist physician or for inpatient care shall be allowed to choose from among all the available specialists and hospitals within the Contractor's Network, to the extent reasonable and appropriate.

31.2 Direct Access Services

The Contractor shall make Covered Services available and accessible to Enrollees as specified in this Contract. The Contractor shall routinely evaluate Out-of-Network utilization and shall contact high volume providers to determine if they are qualified and interested in enrolling in the Contractor's network. If so, the Contractor shall enroll the provider as soon as the necessary procedures have been completed. When an Enrollee wishes to receive a direct access service or receives a direct access service from an Out-of-Network Provider, the Contractor shall contact the provider to determine if it is qualified and interested in enrolling in the network. If so, the Contractor shall enroll the provider as soon as the necessary enrollment procedures have been completed.

The Contractor shall ensure direct access and may not restrict the choice of a qualified provider by an Enrollee for the following services within the Contractor's Network:

- A. Primary care vision services, including the fitting of eye-glasses, provided by ophthalmologists, optometrists and opticians;

The Contractor shall inform the Enrollee, in writing, at the time of Enrollment of the Enrollee's right to request a second opinion.

31.4 Billing Enrollees for Covered Services

The Contractor and its Providers and Subcontractors shall not bill an Enrollee for Medically Necessary Covered Services with the exception of applicable co-pays or other cost sharing requirements provided under this Contract. Any Provider who knowingly and willfully bills an Enrollee for a Medicaid Covered Service shall be guilty of a felony and upon conviction shall be fined, imprisoned, or both, as defined in Section 1128B(d)(1) 42 U.S.C. 1320a-7b of the Social Security Act. This provision shall remain in effect even if the Contractor becomes insolvent.

However, if an Enrollee agrees in advance in writing to pay for a Non-Medicaid covered service, then the Contractor, the Contractor's Provider, or Contractor's Subcontractor may bill the Enrollee. The standard release form signed by the Enrollee at the time of services does not relieve the Contractor, Providers and Subcontractors from the prohibition against billing a Medicaid Enrollee in the absence of a knowing assumption of liability for a Non-Medicaid Covered Service. The form or other type of acknowledgement relevant to Medicaid Enrollee liability must specifically state the services or procedures that are not covered by Medicaid.

31.5 Referrals for Services Not Covered by Contractor

When it is necessary for an Enrollee to receive a Medicaid service that is outside the scope of the Covered Services provided by the Contractor, the Contractor shall refer the Enrollee to a provider enrolled in the Medicaid fee-for-service program. The Contractor shall have written policies and procedures for the referral of Enrollees for Non-Covered Services that shall provide for the transition to a qualified health care provider and, where necessary, assistance to Enrollees in obtaining a new Primary Care Provider. The Contractor shall submit any desired changes to the established written referral policies and procedures to the Department for review and approval subject to Section 4.4 **"Approval of Department."**

31.9 Institutions for Mental Disease (IMD) Expansion

In accordance with 42 C.F.R. 438.3(e)(2), the Contractor may cover services or settings in lieu of services or settings covered under the State Plan, including an inpatient stay in an IMD for psychiatric or substance use disorder, for Enrollees aged 21 through 64 for a short term stay up to the number of days permitted by CMS.

- A. The services and settings will be reimbursable and subject to the requirements of 42 C.F.R. Part 438.
- B. Per 42 C.F.R. 438.3(e)(2)(ii), the Contractor may not require an Enrollee to receive services in an IMD.

The Contractor shall align its criteria and processes and comply with such requirements no later than ninety (90) calendar days after written notification is sent from the Department. Any systems or policy and process changes required to implement new requirements shall be made at no cost to the Department.

32.7 Reimbursement Rates and Dispensing Fees

The Department shall set, create, or approve, and may change at any time for any reason, reimbursement rates between the Contractor or a pharmacy benefit manager or administrator or the like subcontractor and a pharmacy Provider, or an entity which contracts on behalf of a pharmacy. Reimbursement rates shall include dispensing fees which take into account applicable CMS guidance. Therefore, covered outpatient or prescribed drugs dispensed by Contractor to Enrollees, including diabetic testing supplies, insulin, and those drug products administered by network Providers in an office/clinical or other non-institutional setting, are subject to the same manufacturer rebate requirements as Kentucky Medicaid FFS outpatient drugs. Such utilization information must include, at a minimum, information on the total number of units of each dosage form, strength, date of service (date of dispense), paid date (actual date claim was paid) and package size by NDC of each covered outpatient drug and prescribed drug dispensed or covered by the Contractor's plan. The Department or its designated contractor shall provide this claims level detail to manufacturers to assist in dispute resolutions. However, since the Department is not the POS Claims processor, resolutions of unit disputes are dependent upon cooperation of the Contractor. The Contractor shall assist the Department in resolving drug rebate disputes with the manufacture.

If at any time during this Contract, requirements are revised to align with State or federal laws, regulations or guidance, Contractor shall make all changes necessary to remain in compliance.

If the physician prescribed an amount of drug that is less than a seventy-two (72) hour supply but is packaged so that it must be dispensed intact, the pharmacist may dispense the packaged drug and Contractor shall pay for this quantity even if it exceeds a calculated seventy-two (72) hour supply. Contractor shall instruct the pharmacy Providers how to perform the override in the NCPDP environment of the POS pharmacy claims processing system.
- F. Contractor's PA process shall include procedures for Enrollee appeals and grievances submitted by the Enrollee or the prescriber authorized to act on behalf of the Enrollee related to PAs denied after the final escalated review. Although the Contractor may seek additional information before making determination on a particular prior authorization request, all such information shall be requested from the Provider by way of a supplemental prior authorization information sheet that does not duplicate information found on the Kentucky Medicaid universal pharmacy prior authorization form. The Contractor shall not deny a prior authorization request submitted on the designated universal pharmacy prior authorization form and require the provider to submit the Contractor specific form but rather shall suspend the request while awaiting a supplemental information sheet.
- I. The Contractor shall make prior authorization determinations in a timely and consistent manner so that Enrollees with comparable medical needs receive a comparable and consistent level, amount, and duration of pharmacy services as supported by the Enrollee's medical condition, records, and previous affirmative coverage decisions.

41.25 Disclosure of Certain Financial Information

The Contractor agrees to provide the Department, upon request, information regarding salaries, travel, other compensation, and other expenses listed in **Appendix K. “Reporting Requirements and Reporting Deliverables.”** The contractor agrees to provide any information requested by the Department regarding expenditures related to this Contract. Including but not limited to any findings of the Medicaid Managed Care Operations Examination.

42.0 Kentucky HEALTH Policies and Performance Requirements

The provisions of this section are intended to implement and support the Kentucky Health Waiver project. To the extent that any provisions in this section conflict with the preceding provisions of the Contract for the populations known as Kentucky HEALTH Enrollees, set forth in Section 42.1, the provisions of Section 42 shall control.

The Contractor shall apply Kentucky HEALTH policies as outlined in this Section to all Kentucky HEALTH Enrollees. The requirements of this Section shall not apply to Enrollees assigned to the Kentucky HEALTH Random Control Trial (RCT). The Contractor shall comply with all requirements of the Kentucky HEALTH Special Terms and Conditions (STCs).

42.1 Kentucky HEALTH Enrolled Populations

The following eligibility groups shall be enrolled in Kentucky HEALTH:

- A. ACA Expansion Enrollees;
- B. Parents and Caretaker Relatives;
- C. Transitional Medical Assistance (TMA);
- D. Pregnant Women;
- E. Former Foster Youth;
- F. Kentucky HEALTH Children; and
- G. KCHIP Enrollees.

42.2 Enrollment Effective Date

The Contractor shall provide coverage to Kentucky HEALTH Enrollees in accordance with the HIPAA 834 effective date information. Pregnant Women, Former Foster Youth and Kentucky HEALTH Children, with the exception of Deemed Newborns as described in 42 CFR §435.117, shall have retroactive eligibility effective up to three (3) months prior to Medicaid application, to the extent that the conditions of 42 CFR §435.915 are met. Deemed Newborns shall have eligibility from the date of birth if the conditions of 42 CFR §435.117 are met. The Contractor shall be responsible for coverage of benefits during periods of retroactivity as described in Section 27.8 “Persons Eligible for Enrollment and Retroactivity.”

ACA Expansion Enrollees, Parents and Caretaker Relatives, and TMA Enrollees shall not receive retroactive eligibility. Their eligibility effective date is contingent upon the date of initial premium payment; they shall be deemed Conditionally Eligible Enrollees prior to initial premium payment. Upon such payment, Conditionally Eligible Enrollees shall become eligible for Kentucky HEALTH, effective the first day of the month of initial premium payment. Conditionally Eligible Enrollees whose household income is at or below one hundred percent (100%) FPL who do not make an

initial premium payment within sixty (60) days of the Contractor's invoice date shall become eligible for Kentucky HEALTH under the Copayment Plan effective the first day of the month in which the sixty (60) day premium payment period expired.

Kentucky HEALTH Enrollees who make a Fast Track Payment, as further described in Section 42.3 "Fast Track Enrollment," shall be enrolled in Kentucky HEALTH effective the first day of the month in which the Fast Track Payment was made.

Kentucky HEALTH Enrollees who are determined Medically Frail at the time of application, as described in Section 42.12.1 "State Identification of Medically Frail," shall be eligible for enrollment on the first day of the month of application.

42.3 Fast Track Enrollment

Applicants shall be given the opportunity to expedite enrollment into the Premium Plan by making a Fast Track Payment, in accordance with the Kentucky HEALTH Business Requirements. If determined eligible for coverage, submission of a Fast Track Payment shall render a Kentucky HEALTH Enrollee eligible for Kentucky HEALTH coverage effective the first day of the month that the payment is made, which may be as early as the first day of the month of application. If the applicant's eligibility is pending upon electronic application for a reason other than income verification, the amount of the Fast Track Payment shall be a premium dollar amount defined by the Department. If eligibility is determined in real time and the individual is a Conditionally Eligible Enrollee, or has submitted an application which is pending but whose income has been verified, the Fast Track Payment shall be the calculated premium amount determined in accordance with Section 42.5.2 "Premiums." The Department shall establish the dollar amount of the Fast Track Payment and may adjust the amount at any time. The Department shall provide the Contractor at least sixty (60) days advance written notice of any change in the dollar amount of the Fast Track Payment.

The opportunity to make a Fast Track Payment shall not be available to applicants who are in a Presumptive Eligibility period. Notwithstanding the foregoing, if an Enrollee in a Presumptive Eligibility period submits a Medicaid application with other household Enrollees who are not in a Presumptive Eligibility period, the case will have a Fast Track option; however, the Enrollee in a Presumptive Eligibility period shall not be eligible to transfer to the Premium Plan until the next administratively feasible month, in order to avoid an overlap in coverage in the Copayment Plan.

Applicants who select the option to make a Fast Track Payment on the application shall also select whether to join the Contractor's network. Once both selections are made, the Cabinet shall direct the applicant to the Contractor's electronic payment portal.

The Contractor shall establish and maintain an electronic portal for Fast Track Payments which integrates with the IEES electronic application portal, and by which Fast Track Payments may be accepted. The Contractor's electronic portal shall display language, which meets the readability requirements of Section 23.5 "Enrollee Information Materials," indicating the implications for an applicant's enrollment effective date in the event that a Fast Track Payment is not made. Such language shall be subject to Department review and approval.

The Contractor, via its electronic portal, shall accept and process Fast Track Payments made by credit card, debit card, pre-paid debit card, and electronic check. The Contractor's electronic portal shall provide the applicant a confirmation number upon the real-time processing of a payment. Additionally, the Contractor shall send a payment record in accordance with the Kentucky HEALTH Business Requirements, including, but not limited to inclusion of the payment date. Pursuant to the Kentucky HEALTH Business Requirements, the Contractor shall store the application identification

number provided by IEES, the payment amount, and the payment date for the purpose of matching Fast Track Payments to HIPAA 834 records.

Upon receipt of the payment record for applicants who made a Fast Track Payment, IEES shall set the eligibility effective date as the first day of the month in which the Fast Track Payment was received by the Contractor. If no HIPAA 834 is received indicating the eligibility status of an applicant who has made a Fast Track Payment within sixty (60) days of the Contractor's original receipt of the Fast Track Payment, the Contractor shall issue a refund of the full amount within the next ten (10) business days.

If the applicant is determined eligible for Kentucky HEALTH as Cost Sharing Required or Cost Sharing Optional Enrollee, the Contractor shall calculate the difference between the Fast Track Payment made by the applicant and the actual premium obligation owed by the Enrollee as indicated on the HIPAA 834. The Enrollee's subsequent invoice shall display the following:

- A. If the applicant's Fast Track Payment was made for a dollar amount more than the calculated premium amount as indicated on the HIPAA 834, the amount paid in excess of the premium shall be credited to the Enrollee's account, and the Enrollee's first invoice shall reflect the amount due as the calculated premium for the subsequent coverage month minus the amount of the excess Fast Track Payment.
- B. If the applicant's Fast Track Payment was made for an amount less than the calculated premium amount as indicated on the HIPAA 834, the additional amount owed to complete the Enrollee's premium obligation shall be reflected on the Enrollee's first invoice, and the invoice shall reflect the amount due as the calculated premium for the subsequent coverage month plus the difference between the amount of the Fast Track Payment made and the total premium amount owed.

If the Contractor receives a HIPAA 834 with a matching Fast Track Payment indicator prior to the run cycle for Batch Invoicing on the fifteenth day of the month, the Contractor shall add the Enrollee to the batch scheduled on the fifteenth of the month during which the eligibility determination was made. If the Contractor receives a HIPAA 834 with a matching Fast Track Payment indicator after the Contractor's run cycle for Batch Invoicing on the fifteenth of the month, the Contractor shall send one (1) additional invoice to the Enrollee within three (3) business days of receiving the HIPAA 834. This Ad Hoc Invoice shall be due the first day of the following month. The Contractor shall then add the Enrollee to the Batch Invoicing for the following month.

If an applicant is determined Medicaid eligible but not as a Kentucky HEALTH Enrollee, or is enrolled as Cost Sharing Exempt, and no other Enrollee of the household is Cost Sharing Required or Cost Sharing Optional and enrolled with the Contractor, then the Contractor shall issue a refund of the full amount of the Fast Track Payment within ten (10) business days of receipt of the HIPAA 834 record indicating such eligibility. Additionally, if an applicant is determined eligible as a Former Foster Youth or Medically Frail Enrollee, the Contractor shall issue a refund of the Fast Track Payment if requested by the Enrollee. When a refund of a Fast Track Payment is made to a Cost Sharing Optional Enrollee, the Contractor shall transmit the refund information to the Department in accordance with the Kentucky HEALTH Business Requirements in order to facilitate Enrollee transition out of the Premium Plan without application of a Non-Payment Penalty. Refunds of Fast Track Payment shall be made to the original source of payment.

42.4 Kentucky HEALTH Presumptive Eligibility

Individuals determined presumptively eligible for Kentucky HEALTH shall be enrolled with an MCO for the Presumptive Eligibility period. Presumptive Eligibility applicants shall be given the

opportunity to select an MCO at the point of application. The Department shall assign the applicant in the absence of a self-selection.

The Contractor shall provide covered benefits during the Presumptive Eligibility period in accordance with the table below.

Category	Description	Presumptive Eligibility Benefits
PEAD	Presumptively Eligible ACA Expansion Enrollee	ABP (refer to Section 42.10)
PEPC	Presumptively Eligible Parent and Caretaker Relative	State Plan Benefits (refer to Section 31.0)
PEC1 PEC2 PEC4	Presumptively Eligible Child	State Plan Benefits (refer to Section 31.0)
PEPR	Presumptively Eligible Pregnant Woman	Ambulatory Prenatal Care (as required under 42 CFR §435.1103)

The Contractor shall not send premium invoices during the Presumptive Eligibility period. Presumptively eligible ACA Expansion Enrollees and Parent and Caretaker Relatives shall be responsible for copayments for all services received during the Presumptive Eligibility period. The Contractor shall charge copayments to these Enrollees in accordance with Section 42.5.3 “Copayments” and deduct the applicable copayment amount from provider claims reimbursement.

The Presumptive Eligibility period shall end either (i) the last day of the month following the start of the Presumptive Eligibility period for individuals who do not file a Medicaid application; (ii) the day of the Medicaid application denial; or (iii) for individuals found fully eligible for Kentucky HEALTH, the first day of the month of the eligibility determination.

The HIPAA 834 shall contain information on presumptively eligible Enrollees who have been determined fully eligible for Kentucky HEALTH. ACA Expansion Enrollees and Parent and Caretaker Relatives transitioning from Presumptive Eligibility to fully eligible Kentucky HEALTH Enrollees shall be enrolled in the Copayment Plan initially, regardless of FPL, to provide sufficient time for the Enrollee to make a premium payment and avoid a coverage gap. Kentucky HEALTH Children, Former Foster Youth, Pregnant Women and Medically Frail Enrollees transitioning from Presumptive Eligibility to fully eligible Kentucky HEALTH Enrollees shall be enrolled in Kentucky HEALTH with no cost sharing requirement.

The Contractor shall send a prospective initial premium invoice within three (3) business days of receipt of a record on the HIPAA 834 indicating that the ACA Expansion Enrollee or Parent and Caretaker Relative Enrollee has transitioned from Presumptive Eligibility to the Copayment Plan. The invoice shall be due to be paid within sixty (60) days. The Contractor shall report invoice details to IEES in accordance with the Kentucky HEALTH Business Requirements. Enrollees transitioning from a Presumptive Eligibility period who do not make an initial premium payment within sixty (60) days of the invoice date shall be subject to a Non-Payment Penalty as outlined in Section 42.8.12 “Non-Payment of Premiums and Non-Payment Penalties.” If the Enrollee pays the invoice on or before its due date, the Contractor shall report the payment to IEES as part of its daily payment reporting, in accordance with the Kentucky HEALTH Business Requirements, which shall trigger conversion of the Enrollee to the Premium Plan effective the first day of the month following the month in which the payment was made. The Contractor shall then initiate ongoing Batch Invoicing as described in Section 42.8.1 “Batch Invoicing Obligations.”

42.5 Kentucky HEALTH Cost Sharing

42.5.1 Cost Sharing Obligations

All Kentucky HEALTH Enrollees shall be responsible for making financial contributions toward their health care coverage either through payment of premiums or copayments, except for the following groups:

Pregnant Women;

Kentucky HEALTH Children; and

Former Foster Youth and Medically Frail Enrollees, who may optionally pay premiums to gain access to the My Rewards Account.

42.5.2 Premiums

The Contractor shall impose monthly premiums in accordance with the premium amount reflected on the HIPAA 834 for all Conditionally Eligible and Premium Plan Enrollees. Premiums shall be calculated by the Department based on an enrollee's MAGI household FPL. The Department shall have the right to adjust the premium amounts at any time and shall provide the Contractor at least sixty (60) days advance written notice of such adjustments becoming effective, after the initial premium. Initial premium amounts shall be charged as outlined in the table below. Kentucky HEALTH premiums shall be applied to the entire MAGI household enrolled with the Contractor. For example, if a husband and wife are both enrolled with the Contractor, and their combined income is below twenty-five percent (25%) FPL, a total monthly premium of one dollar (\$1.00) shall be charged to the household by the Contractor. Kentucky HEALTH MAGI households with a premium obligation who are enrolled with multiple MCOs shall be charged a premium for each MCO with which they are enrolled. For example, if a husband and wife are enrolled in separate MCOs and their income is below twenty-five percent (25%) FPL, each MCO with which they are enrolled shall charge a one dollar (\$1.00) monthly premium.

FPL	Monthly Premium Amount
≤25% FPL	\$1.00
>25% - ≤50%	\$4.00
>50% - ≤100%	\$8.00
>100% - ≤138%	\$15.00

For Kentucky HEALTH Enrollees with an income above one hundred percent (100%) FPL, premiums shall increase based on length of enrollment in Kentucky HEALTH. The duration of enrollment shall be calculated based on the Kentucky HEALTH Enrollee within a MAGI household with the longest enrollment in Kentucky HEALTH. The Contractor shall charge escalating premiums in accordance with the table below.

Duration of Kentucky HEALTH Enrollment	Monthly Premium
0-24 months	\$15.00

25-36 months	\$22.50
37-48 months	\$30.00
49+ months	\$37.50

The Contractor shall accommodate the premium schedule in accordance with any future modifications made by the Department. The Department shall provide sixty (60) days advanced notice to the Contractor of any such modifications.

42.5.3 Copayments

The Contractor shall impose copayment requirements on all Copayment Plan Enrollees. The copayment schedule shall be the copayments approved by CMS in the Kentucky Medicaid State Plan. The Contractor shall update the copayment schedule in accordance with any future modifications made by the Department. The Department shall provide sixty (60) days advanced notice to the Contractor of any such modifications.

The Contractor shall establish education efforts, policies, and procedures for contracted providers to collect copayments from Kentucky HEALTH Enrollees enrolled in the Copayment Plan at the time of service. In accordance with 42 CFR §447.52, providers shall not deny care or services to any Enrollee at or below one hundred percent (100%) FPL because of his or her inability to pay the copayment. The Contractor shall implement the following mechanisms to enforce this policy: (i) provider education; (ii) documentation in the provider manual; and (iii) assistance to Enrollees who report that they have been denied services due to inability to pay.

Additionally, the Contractor shall reduce the payment it makes to providers by the amount of the Enrollee's copayment obligation, regardless of whether the provider has collected the payment. The Contractor shall ensure that copayments are not imposed on the following exempt services:

1. Emergency Services as defined at Section 1932(b)(2) of the Social Security Act and 42 CFR §438.114(a);
2. Family planning services and supplies described in Section 1905(a)(4)(C) of the Social Security Act, including contraceptives and pharmaceuticals for which the State can claim enhanced federal match under Section 1903(a)(5) of the Social Security Act;
3. Preventive Services, defined as (i) all the preventive services assigned a grade of A or B by the United States Preventive Services Task Force (USPSTF); or (ii) all approved adult vaccines, including their administration, recommended by the Advisory Committee on Immunization Practices, as well as the influenza vaccine; or (iii) preventive care and screening recommended by the Health Resources and Services Administration Bright Future Program Project; or (iv) preventive services recommended by the Institute of Medicine;
4. Pregnancy-related services, which in accordance with 42 C.F.R. 447.56 shall include all services provided to pregnant Kentucky HEALTH Enrollees; and
5. Provider-preventable services as defined in 42 CFR §447.26(b).

In imposing a copayment for an emergency room visit for a non-emergent service, the Contractor shall ensure compliance with 42 CFR §447.54 and Section 42.11 "Non-Emergency Use of the Emergency Room". The Contractor shall consider an emergency room visit emergent, for purposes of waiving the copayment, if the Enrollee had a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) that a prudent layperson, who possesses an average knowledge of health and medicine, could

reasonably expect the absence of immediate medical attention to result in the following:

1. Placing the health of the Enrollee (or, for a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
2. Serious impairment to bodily functions; or
3. Serious dysfunction of any bodily organ or part.

The Contractor shall not limit what constitutes a non-emergent visit, for purposes of imposition of the copayment, on the basis of lists of diagnoses or symptoms. Conditional Eligibility, Initial Invoicing, and Payment Processing

42.6 Conditional Eligibility, Initial Invoicing, and Payment Processing

42.6.1 Conditional Eligibility Welcome Packet and Initial Invoicing

Within three (3) business days of receipt of a HIPAA 834 with a new Conditionally Eligible Enrollee, the Contractor shall send a Kentucky HEALTH welcome packet. The Kentucky HEALTH welcome packet shall include, at minimum, an initial premium invoice and a welcome letter. The Contractor's welcome packet shall be subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

The initial premium invoice shall meet the requirements of Section 42.8.1 "Batch Invoicing Obligations." Additionally, it shall include: (i) a clear indication that benefit coverage is conditioned upon premium payment, including a description of how the benefit effective date is impacted by premium payment; and (ii) that the individual may change MCOs until the first payment is made, including clarification that once initial payment is made, the Enrollee may only change MCOs for cause, except during the annual open enrollment period.

The welcome letter shall be tailored individually to address differences for households with income at or below one hundred percent (100%) FPL, and those with income above one hundred percent (100%) FPL. The welcome letter shall include the following:

- A. An explanation that payment is due sixty (60) days from the date of first invoice;
- B. An explanation that eligibility shall be effective the first day of the month during which a timely payment is made;
- C. An explanation of the consequences of non-payment, which shall be as follows:
 1. For households with income at or below one hundred percent (100%) FPL, the letter shall explain that if an initial premium payment is not received within sixty (60) calendar days of the invoice date, coverage in the Copayment Plan shall begin the first day of the month in which the sixty (60) day payment period ends. Further, it may describe the benefits of enrollment in the Premium Plan versus Copayment Plan, including, but not limited to, predictability in healthcare costs and access to the My Rewards Account; and
 2. For households with income above one hundred percent (100%) FPL, the letter shall indicate that failure to make an initial premium payment within sixty (60) days of the invoice date shall result in denial of eligibility and the requirement to reapply for Kentucky HEALTH coverage;
- D. A description of the option to change the Enrollee's MCO before payment is made and how to do so;
- E. Information about requirements for reporting any changes that may impact eligibility;
- F. An explanation that once initial payment is made, an Enrollee may only change MCOs for cause, except during the annual open enrollment period.

The Contractor shall invoice Conditionally Eligible Enrollees experiencing transitions or changes in accordance with Kentucky HEALTH Business Requirements. Transitions which may occur during the conditional eligibility period which impact Contractor invoicing include, but are not limited to (i) case changes; (ii) Medically Frail determinations; (iii) pregnancy reports; and (iv) MCO changes.

42.6.2 Conditional Eligibility Initial Invoice Reporting

The Contractor shall send conditionally eligible invoice information to IEES daily and in accordance with the Kentucky HEALTH Business Requirements.

42.6.3 Conditional Eligibility Reporting of Payment and Non-Payment

The Contractor shall report payments received from Conditionally Eligible Enrollees on a daily basis to IEES. The Contractor shall report the payment date as the date of receipt; however, payment records shall only be sent after the payment has cleared. Notwithstanding the foregoing, the Contractor shall ensure the timely processing of payments and shall send payment records to IEES within one (1) business day of the payment clearing and no later than the sixth day of the month following receipt of payment. The Conditionally Eligible Enrollee shall become fully eligible for Kentucky HEALTH effective the first day of the month of the reported premium payment date. The Contractor shall transition Conditionally Eligible Enrollees who become fully eligible for Kentucky HEALTH to ongoing Batch Invoicing in accordance with Kentucky HEALTH Business Requirements.

Once the Contractor has confirmed from all payment sources that payment was not received by the due date (sixty (60) days following the date of invoice), the Contractor shall send IEES a termination record indicating the Enrollee's late payment. When either a late payment is reported, or no record is sent by the Contractor within seventy-five (75) days of the initial eligibility determination date, the Conditionally Eligible Enrollee shall be subject to non-payment penalties in accordance with Section 42.6.5 "Non-Payment Penalty During Conditional Eligibility."

If the Contractor receives a payment of an initial invoice following the close of the sixty (60) day payment period, the payment shall not be reported to IEES as payment of the initial invoice. Rather, for individuals in households with income at or below one hundred percent (100%) FPL, the Contractor shall retain the payment and apply it to a future invoice. For individuals in households with income above one hundred percent (100%) FPL, the Contractor shall refund the payment within thirty (30) days of receipt.

42.6.4 Conditional Eligibility Payment Reminders

The Contractor shall send a minimum of two (2) written payment reminder notices to Conditionally Eligible Enrollees between the date of initial invoice and the close of the sixty (60) day payment period. Payment reminders shall not be required once payment of the initial invoice is made. The intervals by which these payment reminders are sent shall be at the discretion of the Contractor. The Contractor's payment reminder notices shall be subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

42.6.5 Non-Payment Penalty During Conditional Eligibility

Conditionally Eligible Enrollees shall make a premium payment within sixty (60) days of the Contractor's invoice date. IEES shall determine Conditionally Eligible Enrollees' payment as untimely upon the first of (i) receipt of the Contractor's non-payment file; or (ii) passage of seventy-five (75) days since the Enrollee was determined eligible for Kentucky HEALTH.

Conditionally Eligible Enrollees over one hundred percent (100%) FPL who fail to make a premium payment within sixty (60) days of the invoice date shall be denied eligibility for Kentucky HEALTH. A Conditionally Eligible Enrollee over one hundred percent (100%) FPL who has previously been denied eligibility for Kentucky HEALTH shall submit a new application should they wish to participate in Kentucky HEALTH, and no non-payment penalty shall be applied. The Contractor shall have no ongoing responsibilities to a formerly Conditionally Eligible Enrollee who has been denied eligibility for Kentucky HEALTH. Notwithstanding the foregoing, if the Contractor has received a partial payment from the Conditionally Eligible Enrollee that does not satisfy the individual's full premium obligation, the Contractor shall issue a refund of the partial payment within thirty (30) days.

Conditionally Eligible Enrollees at or below one hundred percent (100%) FPL who fail to make a premium payment within sixty (60) days of the invoice date shall be enrolled in the Copayment Plan effective the first day of the month in which the sixty (60) day payment period expires. The Enrollee shall then receive a six (6) month Non-Payment Penalty effective the first of the next administratively feasible month.

No Non-Payment Penalty shall be applied to Medically Frail or Former Foster Youth who choose not to make premium payments. The Contractor shall not be required to continue invoicing Cost Sharing Optional Enrollees who have opted out of premium payments. However, the Contractor shall develop an outreach program, subject to Department approval, targeted to Cost Sharing Optional Enrollees to assist them in learning about the benefits of the Premium Plan. This outreach shall include, at minimum, requirements for accessing the Premium Plan and benefits of the Premium Plan, including but not limited to access to the My Rewards Account.

42.8.4 Payments Methods

The Contractor shall accept, at minimum, premium payments via the following methodologies:

- A. Check;
- B. Money order;
- C. Automatic payroll deduction;
- D. Cash;
- E. Online payment via web portal;
- F. Electronic check or debit card payment via telephone;
- G. Automatic draft withdrawal from a designated account;
- H. Credit and debit card;
- I. Automated Clearinghouse (ACH); and
- J. Electronic funds transfer.

The Department encourages the Contractor to establish arrangements for Kentucky HEALTH Enrollees to make no-cost premium payments at in-person locations, particularly via cash. To the extent such arrangements are utilized, the Contractor shall ensure that any in-person contributions are processed and communicated to IEES in accordance with the timelines and requirements established at Section 42.8.5 "Payment Processing and Reporting."

42.8.5 Payment Processing and Reporting

The Contractor shall communicate all information regarding premium payments to IEES in accordance with the Kentucky HEALTH Business Requirements. This shall include, but shall not be limited to, transmission of the Contractor invoice date for each Kentucky HEALTH Enrollee with a premium obligation, premium payments received, and the date of payment receipt. The Contractor shall transmit records of all premium payments and non-payments for ongoing Batch Invoicing no later than the sixth day of each month.

For premium payments via direct deposit or payroll deduction, the Contractor shall provide confirmation to the Enrollee that the payment was debited. Additionally, for electronic and telephonic payments, the Contractor shall provide the Enrollee with a confirmation number upon real-time processing of the payment.

The Contractor shall make premium payment status available to its Enrollees (i.e., via an Enrollee web portal or helpline). Available information shall include, but not be limited to, the Enrollee's required monthly premium contribution amount, a record of premium payments received year-to-date, and Past Due premium payment amounts. The Contractor shall give Enrollees an opportunity to review and seek correction of their payment history.

Payment via a dishonored check due to insufficient funds shall be considered non-payment. If an Enrollee's check is returned for insufficient funds, the Contractor may charge a commercially reasonable fee for the returned check. However, any Enrollee non-payment of the returned check fee shall be considered Debt and under no circumstances shall the Contractor be permitted to treat such non-payment as Past Due. The Contractor shall develop, print, and mail notices to Enrollees if their payments are returned from the bank due to insufficient funds. These notices shall be subject to Department review and approval in accordance with Section 4.4 "Approval of Department," and shall include, at minimum, notification that the premium payment could not be processed due to insufficient funds, the premium amount due, the due date, and consequences for non-payment.

The Contractor shall accept partial premium payments. However, the Kentucky HEALTH Enrollee shall pay the monthly premium payment in full, and all other amounts due, within sixty (60) calendar days of the invoice date or be subject to a Non-Payment Penalty described in Section 42.8.12 "Non-Payment of Premiums and Non-Payment Penalties."

As such, the Contractor shall track partial payments of premiums, but shall only send a payment record to IEES after the complete premium payment has cleared.

The Contractor shall also accept pre-payments of future premium contributions. The Contractor shall track such payments as a credit toward future premium payments. The Contractor shall continue to send monthly Batch Invoices when prepayments have been made; the invoice shall reflect the premium amount due with any prepayment listed as a credit applied to the premium.

42.8.6 Delinquent Payment Notices

If an Enrollee has not made the required premium payment for the current month of coverage, the Contractor shall send the Enrollee a delinquent payment notice. The first notice may be sent as early as the second day of the month of coverage for which payment has not been received and shall be sent no later than the seventh day of the month of coverage for which the premium payment was to be applied. If the Contractor does not receive a premium payment from an Enrollee for a second consecutive month, a second delinquent payment notice shall be sent. This notice may be sent as early as the second day of the second unpaid coverage month and shall be sent no later than the seventh day of the second coverage month of non-payment.

The Contractor shall develop three (3) separate delinquent payment notices targeted to: (i) individuals at or below one hundred percent (100%) FPL; (ii) individuals above one hundred percent (100%) FPL; and Cost Sharing Optional Enrollees who have opted into premium payments. The notice targeted by FPL shall include an explanation noting a change in income moving the Enrollee above or below one hundred percent (100%) FPL will impact the type of Non-Payment Penalty applied. These notices shall advise the Enrollee of (i) the delinquent payment; (ii) the date that the payment shall be made to prevent a Non-Payment Penalty; (iii) the option for Medically Frail screening; (iv) consequences of nonpayment of required premiums; and (v) information about reporting changes in circumstances, including household income. The notice targeted to households with only Cost Sharing Optional Enrollees shall indicate that the Enrollee shall no longer have access to the My Rewards Account if payment is not received.

The Contractor's delinquent payment notices are subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

42.8.7 Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods

The Contractor shall not be required to invoice Enrollees who have been assessed a Non-Payment Penalty. However, the Contractor shall conduct outreach to these Enrollees, in accordance with a Contractor-developed and Department-approved outreach strategy. At a minimum, as part of its outreach strategy, the Contractor shall correspond to the Enrollee in writing during the month in which the penalty is effectuated, which shall include details necessary to facilitate Enrollee payment. This communication shall include, at a minimum: (i) how to remove the Non-Payment Penalty; (ii) amount of premium owed; (iii) forms of payment accepted; (iv) where payment can be made; and (v) the overall benefits of Kentucky HEALTH, including the benefits of participating in the Premium Plan for individuals on the Copayment Plan.

Notwithstanding the foregoing, the Contractor shall send a premium invoice on the fifteenth of the month prior to the end of an Enrollee's Non-Payment Penalty period. This invoice shall include a cover letter indicating that the Enrollee's penalty period is ending and the Enrollee need only make one (1) premium payment to enter the Premium Plan and regain access to the My Rewards Account. The invoice shall only require payment of the upcoming coverage month.

The Contractor shall not invoice Enrollees in a Community Engagement Suspension. However, the Contractor shall develop an outreach program approved by the Department to assist such Enrollees in regaining coverage. At a minimum, this outreach shall include requirements for ending the Community Engagement Suspension and the overall benefits of Kentucky HEALTH.

42.8.8 Invoicing During Kentucky HEALTH Transition Scenarios

The Contractor shall follow Kentucky HEALTH Business Requirements for invoicing Enrollees under any of the following transition scenarios: (i) from Cost Sharing Optional to Cost Sharing Required; (ii) from Cost Sharing Exempt to Cost Sharing Required; and (iii) from Cost Sharing Required to Cost Sharing Optional.

42.8.9 Third Party Payment of Premiums

Third parties are permitted to contribute toward a Kentucky HEALTH Enrollee's premium up to one hundred percent (100%) of the Enrollee's monthly premium obligation. The Contractor shall credit third party contributions to the Enrollee's balance upon receipt and may not use the contribution for any other purpose.

If a third party contributes more than one (1) month premium payment, the Contractor shall treat the excess funds as a prepayment, tracking the overpayment as a credit toward future premium payments. The Contractor shall continue to send the Enrollee an ongoing Batch Invoice on the fifteenth day of each month, with the prepayment listed as a credit.

Any third party contributions that exceed an Enrollee's total premium obligation for the remainder of the Benefit Year shall be returned by the Contractor to the contributing third party within thirty (30) days of receipt.

The Contractor shall ensure healthcare providers or provider-related entities making premium payments on behalf of Kentucky HEALTH Enrollees have criteria for providing assistance that does not distinguish between Enrollees based on whether or not they will receive services from the contributing provider(s) or class of provider(s). Further, the Contractor shall ensure that contributing providers do not include the cost of Kentucky HEALTH premium contributions in the cost of care for purposes of Medicare and Medicaid cost reporting or as part of a Medicaid shortfall or uncompensated care.

The Contractor shall maintain a record of all contributions made by third parties on behalf of Enrollees and make reports available to the Department in the timeframe, frequency and format requested. The Contractor shall not make any premium contribution on behalf of a Kentucky HEALTH Enrollee. Further, the Contractor shall be prohibited from reducing the premium amount below the limits established by the Department as described in Section 42.5.2 "Premiums."

42.8.10 Premium Recalculations

Enrollees shall report to the Cabinet all changes which may affect eligibility and their required premium contribution, including changes in income and family size. The Department shall notify the Contractor, via the HIPAA 834, of changes to premium amounts as a result of reported changes. The Contractor shall begin invoicing Kentucky HEALTH Enrollees the updated premium amount in the billing cycle in which the change is effective. If the Contractor receives the change in premium amount after the monthly invoice has already been sent, the amount shall be adjusted on the next month's premium invoice. If the premium payment received after the adjusted premium amount is effective exceeds the new monthly premium obligation, the Contractor shall apply the surplus amount as a credit toward future months' premiums. If the premium payment received after the adjusted premium amount is effective is less than the new monthly premium obligation, the Contractor shall add the remaining balance to the Enrollee's next monthly invoice.

42.8.11 Premium Refunds

If an individual makes a premium payment following termination of enrollment or transfer to another MCO, the Contractor shall apply the payment to any Past Due amounts or Debt owed to the Contractor by the individual. If there are no Past Due amounts or Debt, Contractor shall refund the payment to the individual. If the payment exceeds the Past Due or Debt amount, the Contractor shall apply the payment to the Past Due or Debt amount and refund to the individual any remaining credit. Such refunds shall be made to the individual within thirty (30) days of the last date of the Enrollee's participation with the Contractor. The Contractor shall report payment of Past Due amounts and refunds to IEES. The Contractor shall not report the terminated individual's payment as a payment toward a future month of coverage.

If an Enrollee makes a payment while in a suspended status, the Contractor shall apply the payment in accordance with Kentucky HEALTH Business Requirements. However, if a suspended individual requests a refund of an advanced payment, the Contractor shall refund the payment within thirty (30) days of the request.

In accordance with 42 CFR §447.56, Pregnant Women shall be Cost Sharing Exempt. Enrollees are required to report changes, including pregnancy; therefore, the Contractor is not obligated to retroactively refund premiums paid for months prior to Contractor identification or Kentucky HEALTH Enrollee self-report of pregnancy. The Contractor shall implement strategies to educate Enrollees on the requirement to report pregnancy to the Cabinet. However, once the Contractor is aware of a Kentucky HEALTH Enrollee's pregnancy, the Contractor shall ensure that no premiums are imposed on the pregnant Enrollee. Therefore, in the event that the Contractor has received a prospective premium payment from a woman who is subsequently identified as pregnant, the Contractor shall refund the premium payment for the future month of coverage, within thirty (30) days of the notification of pregnancy. Notwithstanding the foregoing, the Contractor shall apply the premium payment to the Enrollee's premium obligation at the end of her sixty (60) day post-partum period, if that is the preference indicated by the Enrollee. Additionally, the Contractor shall not refund the payment if there are household Enrollees also enrolled in the Premium Plan with the Contractor as the Kentucky HEALTH premium payment is a family premium payment.

42.8.12 Non-Payment of Premiums and Non-Payment Penalties

If a Cost Sharing Required Enrollee fails to make a premium payment by the due date of an ongoing Batch Invoice, the Contractor shall send a non-payment file no later than the sixth day of the month. There shall be no immediate consequence to an Enrollee the first time they are sent in a non-payment status on the Contractor's monthly payment status file. If an Enrollee is included on a second consecutive non-payment file from the Contractor, a Non-Payment Penalty shall become effective the first day of the following month if the Enrollee does not ensure that all owed payments are up-to-date prior to the penalty effective date.

The Non-Payment Penalty for Enrollees whose household income is over one hundred percent (100%) FPL shall be suspension from Kentucky HEALTH enrollment. Kentucky HEALTH Enrollees with income at or below one hundred percent (100%) FPL shall be enrolled in the Copayment Plan. Under the Copayment Plan, Enrollees shall be subject to a copayment for every Kentucky HEALTH service received, as outlined in Section 42.5.3 "Copayments." Additionally, the Department shall deduct twenty-five dollars (\$25) from the Enrollee's My Rewards Account. The My Rewards Account shall also be suspended for the duration of the Enrollee's enrollment in the Copayment Plan, and the Enrollee shall be unable to either use funds from the account or accrue funds in the account for services or activities completed during the suspension.

The Contractor shall report any payments received by the Enrollee to cure the Non-Payment Penalty before it is effectuated, and in accordance with the Kentucky HEALTH Business Requirements. If the Enrollee makes payment prior to the end of the month before the Non-Payment Penalty effective date, but with insufficient time for the Contractor to send a payment record which voids the Non-Payment Penalty prior to it taking effect, the following shall occur:

- A. Enrollees with an income at or below one hundred percent (100%) FPL who were moved to the Copayment Plan shall be moved to the Premium Plan effective the first day of the following month to avoid retroactively overlaying coverage. The Contractor shall invoice these Enrollees during the Batch Invoicing cycle on the fifteenth day of the month to reflect the premium due for the following month of coverage in the Premium Plan.
- B. Enrollees with income over one hundred percent (100%) FPL whose enrollment was suspended shall be enrolled in the Premium Plan effective the first day of the month with no gap in coverage. The Contractor shall continue invoicing the Enrollee on the Batch Invoicing cycle.

The Contractor shall wait until receipt of a HIPAA 834 record to take any actions associated with the Non-Payment Penalty, including suspension or movement from the Premium Plan to the Copayment Plan.

Notwithstanding the foregoing, the following Kentucky HEALTH Enrollees shall not be subject to a Non-Payment Penalty: (i) Cost Sharing Optional Enrollees; and (ii) Enrollees determined to have good cause for non-payment as described in Section 42.8.13 "Good Cause for Premium Non-Payment."

A Non-Payment Penalty shall remain effective for six (6) months unless the Kentucky HEALTH Enrollee (i) completes early re-entry requirements outlined in Section 42.8.14 "Non-Payment Early Re-Entry;" (ii) has a good cause for non-payment; or (iii) during the penalty period becomes pregnant, is determined to be Medically Frail, or otherwise becomes eligible for Medicaid under an eligibility group not subject to a Non-Payment Penalty.

In the absence of early re-entry, the Contractor shall send one (1) premium invoice the month before the expiration of the Enrollee's Non-Payment Penalty. The invoice shall include a cover

letter indicating that the Enrollee's Non-Payment Penalty is ending and that the Enrollee shall make at least one (1) prospective premium payment to transition back to the Premium Plan and regain access to the My Rewards Account. The Contractor may still pursue collection of Debt in accordance with Section 42.8.16 "Debt Collection." Upon expiration of the Non-Payment Penalty, the effective date of an Enrollee's transition from the Copayment Plan to the Premium Plan shall be the first day of the month following premium payment. The effective date of an Enrollee's transition from a suspended status to the Premium Plan shall be the first day of the month in which the premium payment is made.

Enrollees with income at or below one hundred percent (100%) FPL who opt not to make a premium payment at the close of the Non-Payment Penalty period shall remain enrolled with the Contractor in the Copayment Plan with no additional Non-Payment Penalty. Suspended Enrollees with income above one hundred percent (100%) FPL who opt not to make a premium payment at the close of the Non-Payment Penalty period shall remain suspended. The Contractor shall continue outreach to these Enrollees in accordance with Section 42.8.7 "Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods."

42.8.13 Good Cause for Premium Non-Payment

An Enrollee who fails to make the required premium payment for any of the following reasons shall not be subject to a Non-Payment Penalty:

- A. The Enrollee is hospitalized or otherwise incapacitated, or has a disability as defined by the ADA, Section 504 of the Rehabilitation Act, or Section 1557 of the Affordable Care Act, and as a result is unable to pay premiums during the entire sixty (60) day payment period; has a disability and was not provided with reasonable modifications needed to pay the premium; or has a disability, and there were no reasonable modifications which would have enabled the Enrollee to pay premiums during the entire sixty (60) day payment period;
- B. An individual in the Enrollee's immediate family who was living in the same home as the Enrollee was institutionalized or died during the sixty (60) day payment period; an immediate family Enrollee living in the same home as the Enrollee has a disability as defined by the ADA, Section 504 of the Rehabilitation Act, or Section 1557 of the Affordable Care Act, and caretaking or other disability-related responsibilities resulted in the Enrollee's inability to pay the premiums;
- C. The Enrollee was evicted from his or her home or experienced homelessness during the sixty (60) day payment period;
- D. The Enrollee was the victim of a declared natural disaster, such as a flood, storm, earthquake, or serious fire, that occurred during the sixty (60) day payment period; or
- E. The Enrollee was a victim of domestic violence during the sixty (60) day payment period.

The Contractor shall be responsible for educating Enrollees on the good cause reasons for premium non-payment as outlined in paragraphs A through E of this subsection, as well as the process for reviewing and processing premium non-payment good cause requests. Kentucky HEALTH Enrollees may report good cause for premium non-payment to the Cabinet or the Contractor. If the report is made to the Contractor, the Contractor shall complete the following:

- A. Gather the good cause reason reported by the Enrollee;
- B. Determine if the reported reason is in alignment with the non-payment good cause reasons outlined in paragraphs A through E of this subsection;
- C. Determine how many months, and for which months, the good cause reason applies. If a good cause reason only applies to one (1) month, the Contractor shall log the good cause reason for the one (1) month;
- D. Inform the Enrollee of the obligation to provide verification to the Cabinet, the acceptable forms of verification, and the process for submission; and

- E. Send the file to IEES with premium non-payment good cause records in accordance with the Kentucky HEALTH Business Requirements.

The Contractor shall continue to invoice Enrollees with a pending good cause request during the ongoing Batch Invoicing schedule. Because only verified good cause reasons shall be accepted, and these must be reviewed and confirmed by the Cabinet, the Contractor shall continue to invoice the Enrollee and reflect non-payments as Past Due until receipt of verification from the Department that the good cause request has been approved. The Contractor may collect any Debt owed as a result of the good cause non-payment; however, the unpaid amounts shall be considered a Debt owed, rather than a Past Due amount that is required in order to avoid a penalty.

42.8.14 Non-Payment Penalty Early Re-Entry

Kentucky HEALTH Enrollees subject to a Non-Payment Penalty may re-enter the Premium Plan prior to the expiration of the six (6) month penalty period by completing early re-entry requirements. These early re-entry requirements shall include: (i) payment of any applicable Past Due premium amounts; (ii) payment of one (1) month's future premium payment; and (iii) completion of a Re-Entry Course. Enrollees may only exit the Non-Payment Penalty period once during any Benefit Year.

The Contractor shall not be responsible for providing Re-Entry Courses. Rather, the Contractor shall implement outreach and communication strategies to Enrollees in a Non-Payment Penalty period as described in Section 42.8.7 "Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods." Additionally, the Contractor shall ensure that its call center staff are prepared to answer inbound calls from Enrollees in a Non-Payment Penalty period with information regarding the requirements for early re-entry.

42.8.15 4% Maximum Cost Sharing

In accordance with the Special Terms and Conditions and 42 CFR §447.56, a Kentucky HEALTH Enrollee's total cost sharing shall not exceed four percent (4%) of the Enrollee's MAGI household income applied on a quarterly basis. Upon receipt of a HIPAA 834 file indicating that a Kentucky HEALTH Enrollee has reached the four percent (4%) cost sharing limit, for Kentucky HEALTH Enrollees in the Copayment Plan, the Contractor shall ensure that copayments are no longer collected from the Enrollee and are not deducted from provider claims reimbursement through the end of the calendar quarter. For Kentucky HEALTH Enrollees enrolled in the Premium Plan, the Contractor shall send monthly premium invoices reflecting a premium obligation of one dollar (\$1.00) for the remainder of the calendar quarter. In the event that a Kentucky HEALTH Enrollee made a premium payment in excess of one dollar (\$1.00) after the five percent (5%) limit has been met, the Contractor shall apply the amount paid over one dollar (\$1.00) to a future coverage month and reflect the credit on the next invoice. The Contractor shall process updated HIPAA 834 files reflecting the reinstatement of cost sharing for the next calendar quarter and begin charging copayments and premiums in accordance with Kentucky HEALTH policies as outlined in this Contract.

42.8.16 Debt Collection

The Contractor may pursue unpaid premiums for months in which a Kentucky HEALTH Enrollee was fully enrolled but did not make a premium payment. Unpaid premiums during months of conditional eligibility shall not be collected by the Contractor. In pursuing the payment of Debt by an Enrollee, the Contractor shall not: (i) report the Debt to credit reporting agencies; (ii) place a lien on an Enrollee's home; (iii) refer the case to debt collectors; (iv) file a lawsuit;

(v) seek a court order to seize a portion of the Enrollee's earnings; or (vi) sell the Debt for collection by a third party.

42.9 MCO Change Policies

Kentucky HEALTH Enrollees with a mandatory premium contribution and Medically Frail Enrollees may change MCOs without cause if the change is requested prior to (i) the date on which the Enrollee pays an initial premium; or (ii) the date on which the Enrollee has enrolled in Kentucky HEALTH after the sixty (60) day initial payment period has expired. Pregnant Women, Former Foster Youth, Kentucky HEALTH Children and KCHIP Enrollees may change MCOs within the first ninety (90) days of enrollment with an MCO.

All Kentucky HEALTH Enrollees may request disenrollment for cause in accordance with Section 27.13 "Enrollee Request for Disenrollment" and for any reason during the annual open enrollment period. The Department shall not approve retroactive MCO changes for cause for Kentucky HEALTH Enrollees; therefore, the Contractor shall be required to work with the Department to resolve issues related to an Enrollee's disenrollment request prior to a prospective MCO transfer. If an Enrollee is transferred from the Contractor to another MCO, the Contractor shall refund any applicable premium payment received for a future coverage month within thirty (30) days of the Enrollee's last date of participation with the Contractor.

42.10 Kentucky HEALTH Alternative Benefit Plan

Beginning July 1, 2018, ACA Expansion Enrollees shall receive all services, including coverage criteria, limitations and procedures, identified in the Kentucky HEALTH ABP. In the event that the requirements of the ABP conflict with any of the terms of this Contract, the requirements of the ABP shall prevail.

The ABP shall cover the ten (10) essential health benefits: (i) ambulatory patient services; (ii) Emergency Services; (iii) hospitalization; (iv) maternity and newborn care; (v) mental health and substance use disorder services, including behavioral health treatment; (vi) prescription drugs; (vii) rehabilitative and habilitative services and devices; (viii) laboratory services; (ix) preventive and wellness services and chronic disease management; and (x) pediatric services. The ABP shall also specify and cover additional pregnancy-only benefits which the Contractor shall only make available for ACA Expansion Enrollees who are pregnant. Additionally, the Contractor shall ensure that all ACA Expansion Enrollees under age twenty-one (21) are covered for EPSDT benefits in accordance with Section 33.1 "EPSDT." This shall include, but is not limited to, vision and dental coverage which are otherwise not covered under the ABP.

42.10.1 Populations Exempt from Kentucky HEALTH ABP

The following Kentucky HEALTH Enrollees shall not receive the ABP benefits described in Section 42.10 "Kentucky HEALTH ABP":

- A. Parents and Caretaker Relatives;
- B. TMA;
- C. Former Foster Youth;
- D. Pregnant Women who are not ACA Expansion Enrollees;
- E. Kentucky HEALTH Children;
- F. KCHIP recipients; and
- G. Medically Frail Enrollees.

The Contractor shall ensure that the Enrollees described in this Section have access to Covered Services in accordance with Section 31 "Covered Services."

42.11 Non-Emergency Use of the Emergency Room

To impose copayments and My Rewards Account deductions for non-emergency use of the emergency room, as described in Sections 42.5.3 “Copayments” and 42.15 “My Rewards Account,” the Contractor shall ensure that any hospital in its network providing non-emergency care in its emergency room to a Kentucky HEALTH Enrollee shall first conduct an appropriate medical screening pursuant to 42 CFR §489.24 to determine that the Enrollee does not require Emergency Services. The Contractor shall instruct its provider network of the following emergency room services copayment and My Rewards Account deduction policies and procedures, as well as the circumstances under which the hospital shall waive or return the copayment:

- A. Inform Enrollees in the Copayment Plan of the amount of their cost sharing obligation for non-emergency services provided in the emergency room;
- B. Inform Enrollees with a My Rewards Account that non-emergency visits shall result in a deduction to the My Rewards Account, and the deduction amount shall escalate for each inappropriate visit during the Benefit Year;
- C. Provide the Enrollee with the name and location of an available and accessible alternative non-emergency services provider;
- D. Determine that the alternative provider can provide services to the Enrollee in a timely manner with the imposition of a lesser cost sharing amount; and
- E. Provide a referral to coordinate scheduling for treatment by the alternative provider.

42.12 Medically Frail

Enrollees who meet the definition of Medically Frail shall be enrolled in Kentucky HEALTH, but shall not be subject to: (i) Community Engagement requirements; (ii) mandatory cost sharing through premiums or copayments; or (iii) enrollment in the ABP. Medically Frail Enrollees may pay premiums in order to access a My Rewards Account. In accordance with 42 CFR §440.315(f), a person shall be determined Medically Frail if the Enrollee has a disabling mental disorder (including serious mental illness); chronic substance use disorder; serious and complex medical condition; or physical, intellectual or developmental disability which significantly impairs the Enrollee’s ability to perform one or more activities of daily living.

As described in the subsections below, Enrollees shall be identified as Medically Frail in one of the following ways: (i) State identification based on eligibility data; (ii) Enrollee self-attestation; and (iii) Contractor identification through either the Provider Attestation Scoring Tool or Medically Frail Identification Tool.

42.12.1 State Identification of Medically Frail

Individuals eligible for Kentucky HEALTH who are diagnosed with HIV/AIDs as identified by the Ryan White Program, or receiving Retirement, Survivors and Disability Insurance (RSDI) income based upon a disability, or Enrollees with refugee status following their first year of entrance into the United States, shall automatically be determined Medically Frail at the point of application. The Contractor shall not be responsible for initial confirmation or annual reconfirmation of the Medically Frail status of these Enrollees.

42.12.2 Self-Attestation of Medically Frail

Applicants and Enrollees who self-attest to chronic homelessness or inability to complete activities of daily living (ADL) and who become otherwise eligible for Kentucky HEALTH will receive six (6) months of Medically Frail status. The Contractor shall verify the Enrollee’s Medically Frail status prior to the expiration of the six (6) month period. The Contractor shall provide the results of the verification to the State and to the Enrollee in accordance with

Kentucky HEALTH Business Requirements and Section 42.12.3 “Contractor Medically Frail Determination.”

42.12.3 Contractor Medically Frail Determination

Applicants and Enrollees can also self-report a variety of health indicators through the Cabinet operated IEES self-service portal or with the assistance of a DCBS case worker in the IEES worker portal. Upon self-attestation of a physical or behavioral health disorder, the individual will be directed to contact the Contractor to begin the Medically Frail determination process.

Enrollees may also be identified as Potentially Medically Frail through Contractor completion of the HRA, as described in Section 35.1 “Health Risk Assessment.” Completion of the HRA and Enrollee self-reporting, with the exception of the self-attestation indicators specified in Section 42.12.2 “Self-Attestation of Medically Frail,” does not automatically result in designation of an Enrollee as Medically Frail.

Within thirty (30) days of identification of an Enrollee as Potentially Medically Frail through the HRA, the Contractor shall determine if the Enrollee meets the Medically Frail criteria, utilizing the Medically Frail Identification Tool. If the Medically Frail Identification Tool determines the Enrollee as Possibly Medically Frail, the Contractor shall assist the Enrollee or Conditionally Eligible Enrollee in scheduling an appointment with a medical provider, who shall complete the Provider Attestation. The Contractor shall accept completed Provider Attestations, at a minimum, via fax, mail and electronically. Upon receipt of the Provider Attestation, the Contractor shall process the Provider Attestation through the Provider Attestation Scoring Tool.

The Contractor shall also identify Medically Frail Enrollees through ongoing use, on at least a monthly basis, of the Medically Frail Identification Tool. In utilizing the Medically Frail Identification Tool, the Contractor shall include all claims data, including but not limited to, denied claims, Medicare crossover claims and TPL claims. An Enrollee shall be considered Medically Frail if the Medically Frail Identification Tool identifies the Enrollee as automatically Medically Frail. If the Medically Frail Identification Tool identifies the Enrollee as Possibly Medically Frail, the Contractor shall assist the Enrollee in scheduling an appointment with their medical provider for completion of the Provider Attestation within sixty (60) days.

The Contractor shall notify the Department in accordance with the Kentucky HEALTH Business Requirements when an Enrollee is determined Medically Frail by the Contractor through either the Medically Frail Identification Tool or the Provider Attestation Scoring Tool. Upon receipt of the confirmation, the Department shall transfer the Enrollee to Medicaid State Plan benefits, in accordance with Section 31.1 “Medicaid Covered Services,” effective the first day of the month following the Medically Frail confirmation.

Following the Medically Frail determination, the Contractor shall be responsible for notifying the Enrollee, in writing, of the decision, using a Medically Frail notice template developed by the Department. The notice shall include, at minimum, the following information:

- A. The Medically Frail designation decision;
- B. For denials of Medically Frail status, the reasons for the determination and the Enrollee’s right to appeal;
- C. A description of any changes to the Enrollee’s benefits; and
- D. A description of applicable changes to the Enrollee’s cost sharing obligations.

Enrollees with an active My Rewards Account who were enrolled in the Premium Plan prior to a Medically Frail determination shall continue enrollment in the Premium Plan. The Contractor shall ensure, in accordance with Section 42.8.1 “Batch Invoicing,” that premium invoices sent

to the Enrollee following the Medically Frail determination clearly indicate that the premium obligation is optional, including consequences for non-payment. Enrollees determined Medically Frail who have a suspended My Rewards Account shall continue to have their My Rewards Account suspended, but shall no longer be responsible for copayments for services received.

42.12.4 Ongoing Review

Enrollees determined Medically Frail by the Contractor shall be deemed Medically Frail for twelve (12) months. The Contractor shall utilize the Medically Frail Identification Tool and Provider Attestation Scoring Tool to review the status of all Medically Frail Enrollees prior to the expiration of their twelve (12) month period. Enrollees who are reconfirmed Medically Frail shall receive an additional twelve (12) month Medically Frail determination.

The Contractor shall track when it identifies Enrollees whose Medically Frail status has ended prior to the end of the twelve (12) month period through the monthly run of the Medically Frail Identification Tool or via the Provider Attestation as described in Section 42.12.3 “Contractor Medically Frail Determination.” If the Contractor determines that the Enrollee’s Medically Frail status has ended, the Enrollee shall lose the Medically Frail designation effective the first day of the month following the determination. The Contractor shall notify the Enrollee of the denial in accordance with Section 42.12.3 “Contractor Medically Frail Determination.”

Additionally, the Contractor shall review all Kentucky HEALTH Children, KCHIP Enrollees and Former Foster Youth at least thirty (30) days prior to aging out of their eligibility category and Pregnant Women prior to the end of their postpartum period to determine if they are Medically Frail.

42.12.5 Department Audit

The Department shall conduct regular audits of the Contractor’s Medically Frail assessment and confirmation process pursuant to Section 42.12.3 “Contractor Medically Frail Determination” to determine appropriate identification and placement of Medically Frail Enrollees. The Department may subcontract this audit function.

42.13 Community Engagement Initiative

The Contractor shall:

- A. Communicate Community Engagement requirements through the Enrollee handbook and other Enrollee education materials;
- B. Suspend premium invoicing if an Enrollee enters a Community Engagement Suspension status, as communicated on the HIPAA 834. However, the Contractor shall continue invoicing other Enrollees in the same case who have a premium obligation;
- C. Conduct outreach to Enrollees in a Community Engagement Suspension in accordance with the Department-approved outreach plan described in Section 42.8.7 “Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Period;”
- D. Reinstate Batch Invoicing upon notice of an Enrollee’s Community Engagement Suspension as defined in the Kentucky HEALTH Business Requirements;
- E. Ensure that the Enrollee call center can address basic Enrollee inquiries regarding Community Engagement, including, but not limited to:
 - 1. Community Engagement requirements;
 - 2. Applicable exemptions and how to report meeting an exemption requirement;
 - 3. How to report Community Engagement hours;
 - 4. How to avoid Community Engagement Suspension when an Enrollee falls short in a given

- month;
- 5. How to appeal a Community Engagement Suspension;
- 6. Providing referrals to the appropriate State or vendor Community Engagement resources; and
- 7. Requirements for early re-entry from a suspension status.

42.14 Deductible Account

The Contractor shall establish a Deductible Account for all Kentucky HEALTH Enrollees except for Kentucky HEALTH Children, KCHIP Enrollees, and Pregnant Women. The beginning balance of a Deductible Account shall be one thousand dollars (\$1,000), regardless of a Kentucky HEALTH Enrollee's date of enrollment. The Contractor shall track the first one thousand dollars (\$1,000) of non-preventive services received by Enrollees with a Deductible Account and deduct such expenses from the Deductible Account balance. The Contractor shall ensure that the amount deducted for each non-preventive service received equals the actual dollar amount that the Contractor reimbursed to the provider and is not based on the Department's fee-for-service schedule. The Contractor shall not deduct expenses for any preventive services received from the Deductible Account. For purposes of this requirement, the definition of preventive services shall be developed by the Department based on U.S. Preventive Services Task Force (USPSTF) and Centers for Disease Control (CDC) age and gender appropriate preventive services. The Contractor shall comply with the list of preventive services provided by the Department and any updates thereto.

Kentucky HEALTH Enrollees who become pregnant shall have their Deductible Account frozen during their pregnancy and through their sixty (60) day post-partum period. The Contractor shall ensure that healthcare expenses are not deducted from the Deductible Account of a female Enrollee during her pregnancy. Kentucky HEALTH applicants who are pregnant at the time of application shall not have a Deductible Account established until the close of their sixty (60) day post-partum period.

The Contractor shall send a monthly Deductible Account statement to all Kentucky HEALTH Enrollees by the tenth day of each month, utilizing the Department's standardized template. The statement shall be sent in the preferred mode selected by the Enrollee, either via mail or electronically. The Deductible Account statement shall list, at minimum: (i) the previous statement balance; (ii) claims applied to the account during the time period in which the statement applies, including pharmacy claims; (iii) the remaining Deductible Account balance; (iv) an explanation of benefits (EOB) summary for all services received by the Enrollee during the statement period; and (v) the Contractor's helpline number for Kentucky HEALTH Enrollees to contact with questions or concerns regarding the statement.

The Contractor shall continue to send the Deductible Account Statement monthly, even after the full balance has been depleted. The Contractor shall not display a negative Deductible Account balance; rather, the balance shall be displayed as zero dollars (\$0) when funds have been depleted. Exhaustion of the Deductible Account before the end of the Enrollee's Benefit Year shall not change the Contractor's covered service requirements, and the Contractor shall continue to ensure that the Enrollee is able to access covered services.

The Contractor shall implement mechanisms to ensure that its call center staff are able to view an Enrollee's Deductible Account balance and relevant transactions in order to assist with Enrollee phone calls related to the Deductible Account.

To encourage the appropriate utilization of healthcare services, Kentucky HEALTH Enrollees are eligible to have up to one-half of their remaining Deductible Account balance transferred to their My Rewards Account following the close of the Benefit Year. Enrollees with a My Rewards Account

that is suspended or inactive shall not be eligible for such a transfer. The percentage of the Deductible Account balance eligible for transfer to a My Rewards Account shall be based on the number of active months of the Enrollee's enrollment in Kentucky HEALTH within a Benefit Year. For purposes of this requirement, active months are months in which an Enrollee is not disenrolled or in a suspension status. Ninety (90) days after the end of the calendar year, the Contractor shall transmit all Deductible Account balances maintained by its Kentucky HEALTH Enrollees to the Department's designee in accordance with the Kentucky HEALTH Business Requirements. The Contractor shall continue to process claims received after this transmission, but shall not be responsible for continuing to track such expenditures against Deductible Accounts.

In the event that a Kentucky HEALTH Enrollee with a Deductible Account changes MCOs during a Benefit Year, the Enrollee's Deductible Account balance information shall transfer to the Enrollee's new MCO. To facilitate this transfer, the Contractor shall transmit the Enrollee's Deductible Account balance information in accordance with the Kentucky HEALTH Business Requirements. The Contractor shall not be required to track expenditures against the Enrollee's Deductible Account from the effective date of the Enrollee's transfer to another MCO, although the Contractor shall remain responsible for claims incurred prior to the date of transfer.

42.15 My Rewards Account

All Premium Plan Enrollees shall have access to a My Rewards Account. Additionally, pregnant Enrollees aged nineteen (19) or older shall also have access to a My Rewards Account, even though they do not have a premium payment obligation. Pregnant Enrollees who are in a penalty status from their previous enrollment, however, shall not be eligible for a My Rewards Account, unless they complete a Re-Entry Course.

The My Rewards Account may be utilized by Enrollees to access the following services:

- A. Routine dental benefits;
- B. Routine vision benefits;
- C. Limited reimbursement for fitness activities; and
- D. Other services designated by the Department.

Only ACA Expansion Enrollees receiving ABP benefits shall be required to utilize the My Rewards Account to access routine dental and vision benefits. The Contractor shall be responsible for providing routine dental and vision services for all other Kentucky HEALTH Enrollees, as described in Section 42.10.1 "Populations Exempt from Kentucky HEALTH ABP," and including ACA Expansion Enrollees who are pregnant or nineteen (19) or twenty (20) years of age. The Contractor shall ensure that if claims are submitted to the Contractor, or any applicable subcontracted entities, for dental or vision services for ACA Expansion Enrollees, the denial reason codes and explanations shall be clear that while benefits are not reimbursed by the Contractor, reimbursement may be available through the My Rewards Account.

Kentucky HEALTH Enrollees may accrue funds in their My Rewards Account by completing activities as outlined in the Kentucky HEALTH Business Requirements. The Contractor shall not be responsible for operating the My Rewards Account; however, the Contractor shall provide customer service and transmit data, in accordance with the Kentucky HEALTH Business Requirements, regarding Enrollee participation in My Rewards Account accrual activities.

The Contractor shall communicate an Enrollee's completion of any of the following preventive health activities to the Department in accordance with the Kentucky HEALTH Business Requirements:

- A. Completion of a health risk assessment with the Contractor;

- B. Enrollee follow-up visit to a physician within fifteen (15) days of an emergency room visit;
- C. Completion of mammogram, pap smear, colonoscopy, flu shot, annual physical, preventive dental exam, preventive vision exam, or other preventive services as defined by the Department;
- D. Completion of a well-child preventive or comprehensive dental exam or comprehensive vision screening for a dependent child of a Kentucky HEALTH Enrollee;
- E. Participation in drug addiction counseling; and
- F. Participation in smoking cessation activity.

The Department may audit the Contractor's performance regarding the submission of data upon Enrollee completion of My Rewards Account eligible activities, including, but not limited to, comparisons against submitted encounter data.

Activities eligible for My Rewards Account accrual shall be subject to change by the Department, and the Department shall provide the Contractor sixty (60) days advance notice of any such modification. The Contractor shall comply with all modifications to the activities eligible for accrual and shall begin communicating Enrollee completion of new activities for which the Contractor is responsible to the Department immediately upon the modification effective date.

Deductions shall be taken from an Enrollee's My Rewards Account for improper use of hospital emergency room services. The Contractor shall educate its provider network regarding this My Rewards Account deduction policy and ensure compliance with the requirements of Section 42.11 "Non-Emergency Use of the Emergency Room." The deduction shall be applied based on the number of improper visits as described in the table below.

Inappropriate Emergency Room Visit	My Rewards Account Deduction
1st visit	\$20
2nd visit	\$50
3rd visit or more	\$75

The Contractor shall review paid emergency room claims against the Department established list of ICD-10 diagnoses, which indicate non-emergent use of the emergency room. If the Contractor's review determines that the emergency room claim included a primary diagnosis on the non-emergent diagnosis list, the Contractor shall verify whether the Enrollee contacted the twenty-four (24) nurse hotline described in Section 23.1 "Required Functions" within twenty-four (24) hours prior to the emergency room visit. If such a call was made, the visit shall be treated as a valid emergency room visit and the Enrollee shall not be subject to a My Rewards Account deduction. If no call was made to the nurse hotline, the emergency room visit shall be considered improper, and an Enrollee with an active My Rewards Account on the date of service shall be subject to a My Rewards Account deduction. Notwithstanding this policy, if a behavioral health diagnosis is included on the emergency room claim, the visit shall be considered appropriate, and the Enrollee shall not be subject to a My Rewards Account deduction, regardless of whether the primary diagnosis on the claim is included on the non-emergent diagnosis list. The Contractor shall communicate inappropriate use of the emergency room by an Enrollee to IEES in accordance with the Kentucky HEALTH Business Requirements.

The Contractor shall comply with any updates to the non-emergent diagnoses list in accordance with any future modifications made by the Department. The Department shall provide thirty (30) days advance notice to the Contractor of any such modifications.

The Contractor shall provide Enrollee service support to Enrollees who have inquiries regarding their My Rewards Account. At a minimum, the Contractor shall provide the following information in Enrollee communication materials and via the Contractor's Enrollee helpline:

- A. How Enrollees may check their My Rewards Account balance;
- B. Which activities Enrollees may complete to earn funds in their My Rewards Account;
- C. Which benefits can be purchased with My Rewards Account funds;
- D. A link on the Contractor's website to the My Rewards Account website where Enrollees may locate all information regarding their My Rewards Account; and
- E. The Enrollee's My Rewards Account balance, with the ability to transfer an Enrollee to the My Rewards Account call center identified by the Department when more complex issues such as My Rewards Account claims denials are raised.

42.16 Kentucky HEALTH Grievances and Appeals

The Contractor shall process grievances and appeals related to Kentucky HEALTH in accordance with Section 25.0 "Enrollee Grievances and Appeals" and all applicable subsections. In addition, the Contractor shall comply with the following requirements applicable to Kentucky HEALTH:

- A. In the event that an Enrollee's ineligibility determination is overturned on appeal, the Contractor shall be responsible for reactivating an Enrollee's Deductible Account in accordance with the date of eligibility reinstatement. To the extent that the Enrollee's eligibility is reinstated effective in the same Benefit Year during which eligibility was initially lost, upon the reinstatement of the Enrollee's Deductible Account, the Contractor shall apply the balance that was in effect as of the date of loss of eligibility;
- B. Benefits currently held by Enrollees who timely appeal a Cabinet termination of eligibility shall be continued while the appeal is pending. During the appeal period, the Contractor shall continue to send monthly premium invoices and collect premium payments in accordance with Section 42.8 "Billing and Collections;"
- C. Benefits shall not be continued during an appeal period if the Enrollee's appeal concerns an eligibility suspension for premium non-payment;
- D. If an appeal is related to an increase in premium amount, the Contractor shall invoice the Enrollee at the new premium amount, as reflected on the HIPAA 834. If the premium increase is overturned on appeal, the Contractor shall apply any overpayments made toward future months' premiums;
- E. Enrollees shall continue to receive State Plan benefits in the event that they timely appeal a transition to the ABP. If a change in benefits is appealed but not within the timeframe required to continue benefits in the State Plan, the Contractor shall provide coverage to the Enrollee via the ABP. Further, in the event that the Enrollee's benefit change is overturned on appeal, the Contractor shall transfer the Enrollee to State Plan benefits in accordance with the effective date of the appeal determination;
- F. The Contractor shall manage grievances related to Deductible Accounts in accordance with 42 CFR 428, Subpart F and Section 25 "Enrollee Grievances and Appeals" of this Contract. Further, the Contractor shall adjust each Deductible Account balance in alignment with the applicable grievance resolution and communicate any such balance updates in accordance with the Kentucky HEALTH Business Requirements;
- G. Appeals regarding Medically Frail determinations shall be processed by the Contractor in accordance with the appeals requirements at 42 CFR 428, Subpart F and Section 25 "Enrollee Grievances and Appeals" of this Contract. In the event that an Enrollee subsequently appeals the Contractor's appeal decision to the Cabinet, the Contractor shall comply with requests for documentation from the Department, its designee, or State Fair Hearings. The Contractor shall comply with the final determination of the Enrollee's Medically Frail status, including the application of benefits and cost sharing in accordance with Kentucky HEALTH policy; and
- H. Appeals of eligibility suspension due to premium non-payment shall be processed by State Fair Hearings; however, the Contractor shall provide to the Cabinet either proof of payment

receipt, or non-payment.

42.17 Recertification

Kentucky HEALTH Enrollees shall complete an eligibility recertification every twelve (12) months, in accordance with 42 CFR §435.916. If eligibility is maintained at recertification, the Kentucky HEALTH Enrollee shall maintain enrollment in their current cost sharing plan (i.e., Premium Plan or Copayment Plan).

ACA Expansion Enrollees, Parent and Caretaker Relatives, and TMA Enrollees who are not Medically Frail and who fail to submit required recertification documentation within ninety (90) days of their benefit end date shall be subject to a six (6) month recertification penalty, during which they shall be prohibited from re-enrolling in Kentucky HEALTH. Kentucky HEALTH Enrollees shall be exempted from the six (6) month recertification penalty period if they meet a just cause exemption, as defined by the Department. Additionally, Kentucky HEALTH Enrollees may complete a Re-Entry Course to initiate early re-entry into Kentucky HEALTH prior to the expiration of the six (6) month recertification penalty period.

To facilitate the continuous enrollment of Kentucky HEALTH Enrollees, and to minimize the number of Enrollees subject to the recertification penalty, the Contractor is encouraged to assist Enrollees in the recertification process. Permitted assistance may include:

- A. Conducting outreach calls and sending letters to Enrollees reminding them to renew their eligibility. All recertification call center scripts and letters shall be subject to Department approval in accordance with Section 4.4 "Approval of Department;"
- B. Reviewing recertification requirements with Enrollees;
- C. Answering questions about the recertification process; and
- D. Helping the Enrollee to obtain required documentation and collateral verification needed to process the recertification.

In providing recertification assistance, the Contractor shall be prohibited from the following:

- A. Discriminating against Enrollees, particularly high-cost Enrollees or Enrollees that have indicated a desire to change MCOs;
- B. Talking to Enrollees about changing MCOs. If an Enrollee has questions or requests to change MCOs, the Contractor shall refer the Enrollee to the Department;
- C. Providing any indication as to whether the Enrollee may be eligible;
- D. Engaging in or supporting fraudulent activity in association with helping the Enrollee complete the recertification process;
- E. Signing the Enrollee's recertification forms; and
- F. Completing or sending recertification materials to DCBS on behalf of the Enrollee.

The Contractor shall provide recertification assistance equally across its membership and be able to demonstrate to the Department that its recertification-related procedures are applied consistently for each Enrollee.

42.18 Kentucky HEALTH Contract Compliance Requirements

The Contractor shall comply with the Kentucky HEALTH performance standards described in this Section. Failure to meet these standards shall subject the Contractor to the penalties described herein, and as applicable, the remedies in Section 40 "Remedies for Violation, Breach, or Non-Performance of Contract."

42.18.1 Premium Collection

The Contractor shall provide premium collection services in accordance with the standards described below.

- A. Premium invoices shall be sent to Conditionally Eligible Enrollees within three (3) business days of receipt of the HIPAA 834 indicating conditional eligibility.
- B. Ongoing premium invoices shall be sent to Kentucky HEALTH Enrollees enrolled in the Premium Plan by the fifteenth day of the month for the subsequent month's coverage.
- C. Contractor invoice information shall be sent to IEES for each Kentucky HEALTH Enrollee and Conditionally Eligible Enrollee with a premium obligation in accordance with the Kentucky HEALTH Business Requirements.
- D. Record of premium payment receipt or non-payment for Kentucky HEALTH Enrollees shall be sent to IEES in accordance with Kentucky HEALTH Business Requirements no later than the sixth of each month.
- E. Record of premium payment or non-payment for Conditionally Eligible Enrollees shall be sent to IEES in accordance with Kentucky HEALTH Business Requirements no later than seventy-five (75) days after the Conditionally Eligible Enrollee's eligibility determination.

Third Party Liability (TPL) Subsystem

In order to ensure that federal third party liability requirements are met and to maximize savings from available Third Party Resources, identification and recovery of Third Party Resources must be a joint effort between the Department and the Contractor. The Department will provide Contractor with the Medicare effective dates.

The Third Party Liability (TPL) processing function permits the Contractor to utilize the private health, Medicare, and other third-party resources of its Members and ensures that the Contractor is the payer of last resort. This function works through a combination of cost avoidance (non-payment of billed amounts for which a third party may be liable) and post-payment recovery (post-payment collection of Contractor paid amounts for which a third party is liable).

Cost avoidance is the preferred method for processing claims with TPL. This method is implemented automatically by the MIS through application of edits and audits which check claim information against various data fields on recipient, TPL, reference, or other MIS files. Post-payment recovery is primarily a back-up process to cost avoidance, and is also used in certain situations where cost avoidance is impractical or unallowable.

The TPL information maintained by the MIS must include Member TPL resource data, insurance carrier data, health plan coverage data, threshold information, and post payment recovery tracking data. The TPL processing function will assure the presence of this information for use by the Edit/Audit Processing, Financial Processing, and Claim Pricing functions, and will also use it to perform the functions described in this subsection for TPL Processing.

Contractor shall comply with the requirements of 42 CFR 455.20 (a) by employing a selected sample method approved by CMS and the Department of verifying with Members whether the services billed by provider were received.

The utilization/quality improvement subsystem combines data from other subsystems, and/or external systems, to produce reports for analysis which focus on the review and assessment of access, availability and continuity of services, quality of care given, detection of over and underutilization of services, and the development of user-defined reporting criteria and standards. This system profiles

utilization of Providers and Members and compares them against experience and norms for comparable individuals.

The subsystem shall support tracking utilization control function(s) and monitoring activities, including Geo Network for all Encounters in all settings particularly inpatient and outpatient care, emergency room use, outpatient drug therapy, EPSDT and out-of-area services. It shall complete provider profiles; occurrence reporting, including adverse incidents and complications, monitoring and evaluation studies; Members and Providers aggregate Grievances and Appeals; effects of educational programs; and Member/Provider satisfaction survey compilations. The subsystem may integrate the Contractor's manual and automated processes or incorporate other software reporting and/or analysis programs.

The Contractor's utilization/quality improvement subsystem shall contain such items as: monitoring of primary care and specialty provider referral patterns processes to monitor and identify deviations in patterns of treatment from established standards or norms, performance and health outcome measures using standardized indicators. The quality improvement subsystem will be based upon nationally recognized standards and guidelines, including but not limited to, a measurement system based upon the most current version of HEDIS published by the National Committee for Quality Assurance.

Surveillance Utilization Review Subsystem (SURS)

In accordance with 42 CFR 455, the Contractor shall establish a SURS function which provides the capability to identify potential fraud and/or abuse of providers or Members. The SURS component supports profiling, random sampling, groupers (for example Episode Treatment Grouper), ad hoc and targeted queries.

The utilization/quality improvement function combines data from other external systems, such as Geo Network to produce reports for analysis which focus on the review and assessment of access and availability of services and quality of care given, detection of over and underutilization, and the development of user-defined reporting criteria and standards. This system profiles utilization of Providers and Members and compares them against experience and norms for comparable individuals.

This system supports tracking utilization control function(s) and monitoring activities for inpatient admissions, emergency room use, and out-of-area services. It completes Provider profiles, occurrence reporting, monitoring and evaluation studies, and Member/Provider satisfaction survey compilations. The subsystem may integrate the Contractor's manual and automated processes or incorporate other software reporting and/or analysis programs.

This system also supports and maintains information from Member surveys, Provider and Member Grievances, Appeal processes.

10. Provide Fraud, Waste and Abuse detection, monitoring and reporting.

C. Reports

Utilization/quality improvement reports are listed in Appendices K and L.

Claims Control and Entry

The Claims Control function ensures that all claims are captured at the earliest possible time and in an accurate manner. Claims must be adjudicated within the parameters of Prompt Pay standards set by CMS and the American Recovery and Reinvestment Act (ARRA).

Edit/Audit Processing

The Claims processing subsystem collects, processes, and stores data on all health services delivered. The functions of this subsystem are Claims payment processing and capturing medical service utilization data. Claims are screened

against the provider and Member subsystems. The Claims processing subsystem captures all medically related services, including medical supplies, using standard codes (e.g. HCPCS, ICD9-CM/ICD-10 CM/PCS diagnosis and procedure code, Revenue Codes, ADA Dental Codes and NDCs) rendered by medical providers to a Member regardless of remuneration arrangement (e.g. capitation/fee-for-service). The Contractor shall be required to electronically transmit Encounter Record to the Department on a weekly basis, or on a department approved schedule that is determined by the Contractor's financial schedule.

The Contractor's Claims processing/encounter subsystem shall contain such items as: apply edit and audit criteria to verify timely, accurate and complete Encounter Record; edit for prior-authorized Claims; identify error codes for Claims.

The Edit/Audit Processing function ensures that Claims are processed in accordance with Department and Contractor policy and the development of accurate encounters to be transmitted to the department. This processing includes application of non-history-related edits and history-related audits to the Claim. Claims are screened against Member and Provider eligibility information; pending and paid/denied claims history; and procedure, drug, diagnosis, and edit/audit information. Those Claims that exceed Program limitations or do not satisfy Program or processing requirements, suspend or deny with system assigned error messages related to the Claim.

Claims also need to be edited utilizing all components of the CMS mandated National Correct Coding Initiative (NCCI)

A. Inputs

The inputs to the Edit/Audit Processing function are:

1. The Claims that have been entered into the claims processing system from the claims entry function;
2. Member, Provider, reference data required to perform the edits and audits.

B. Processing Requirements

Basic editing necessary to pass the Claims onto subsequent processing requires that the MIS have the capabilities to:

1. Edit each data element on the Claim record for required presence, format, consistency, reasonableness, and/or allowable values.
2. Edit to assure that the services for which payment is requested are covered.
3. Edit to assure that all required attachments are present.
4. Maintain a function to process all Claims against an edit/audit criteria table and an error disposition file (maintained in the Reference Data Maintenance function) to provide flexibility in edit and audit processing.
5. Edit for prior authorization requirements and to assure that a prior authorization number is present on the Claim and matches to an active Prior Authorization on the MIS.

6. Edit Prior-Authorized claims and cut back billed units or dollars, as appropriate, to remaining authorized units or dollars, including Claims and adjustments processed within the same cycle.
7. Maintain edit disposition to deny Claims for services that require Prior Authorization if no Prior Authorization is identified or active.
8. Update the Prior Authorization record to reflect the services paid on the Claim and the number of services still remaining to be used.
9. Perform relationship and consistency edits on data within a single Claim for all Claims.
10. Perform automated audit processing (e.g., duplicate, conflict, etc.) using history Claims, suspended Claims, and same cycle Claims.
11. Edit for potential duplicate claims by taking into account group and rendering Provider, multiple Provider locations, and across Provider and Claim types.
12. Identify exact duplicate claims.
13. Perform automated audits using duplicate and suspect-duplicate criteria to validate against history and same cycle claims.
14. Perform all components of National Correct Coding Initiative (NCCI) edits
15. Maintain audit trail of all error code occurrences linked to a specific Claim line or service, if appropriate.
16. Edit and suspend each line on a multi-line Claim independently.
17. Edit each Claim record completely during an edit or audit cycle, when appropriate, rather than ceasing the edit process when an edit failure is encountered.
18. Identify and track all edits and audits posted to the claim from suspense through adjudication.
19. Update Claim history files with both paid and denied Claims from the previous audit run.
20. Maintain a record of services needed for audit processing where the audit criterion covers a period longer than thirty-six (36) months (such as once-in-a-lifetime procedures).
21. Edit fields in Appendices D and E for validity (numerical field, appropriate dates, values, etc.).

Claims Pricing

The Claims Pricing function calculates the payment amount for each service according to the rules and limitations applicable to each Claim type, category of service, type of provider, and provider reimbursement code. This process takes into consideration the Contractor allowed amount, TPL payments, Medicare payments, Member age, prior authorized amounts, and any co-payment requirements. Prices are maintained on the Reference files (e.g., by service, procedure, supply, drug, etc.) or provider-specific rate files and are date-specific.

The Contractor MIS must process and pay Medicare Crossover Claims and adjustments.

A. Inputs

The inputs into the Claims Pricing function are the Claims that have been passed from the edit/audit process.

The Reference and Provider files containing pricing information are also inputs to this function.

B. Processing Requirements

The Claims Pricing function for the Fee for Service contracts the vendor has with providers of the MIS must have the capabilities to:

1. Calculate payment amounts according to the fee schedules, per diems, rates, formulas, and rules established by the Contractor.
2. Maintain access to pricing and reimbursement methodologies to appropriately price claims at the Contractor's allowable amount.
3. Maintain flexibility to accommodate future changes and expanded implementation of co pays.
4. Deduct Member liability amounts from payment amounts as defined by the Department.
5. Deduct TPL amounts from payments amounts.
6. Provide adjustment processing capabilities.

Claims Operations Management

The Claims Operations Management function provides the overall support and reporting for all of the Claims processing functions.

A. Inputs

The inputs to the Claims Operations Management function must include all the claim records from each processing cycle and other inputs described for the Claims Control and Entry function.

B. Processing Requirements

The primary processes of Claims Operations Management are to maintain sufficient on-line claims information, provide on-line access to this information, and produce claims processing reports. The claims operations management function of the MIS must:

1. Maintain Claim history at the level of service line detail.
2. Maintain all adjudicated (paid and denied) claims history. Claims history must include at a minimum:
 - All submitted diagnosis codes (including service line detail, if applicable);
 - Line item procedure codes, including modifiers;
 - Member ID and medical coverage group identifier;
 - Billing, performing, referring, and attending provider Ids and

- corresponding provider types;
 - All error codes associated with service line detail, if applicable;
 - Billed, allowed, and paid amounts;
 - TPL and Member liability amounts, if any;
 - Prior Authorization number;
 - Procedure, drug, or other service codes;
 - Place of service;
 - Date of service, date of entry, date of adjudication, date of payment, date of adjustment, if applicable.
3. Maintain non-claim-specific financial transactions as a logical component of Claims history.
 4. Provide access to the adjudicated and Claims in process, showing service line detail and the edit/audits applied to the Claim.
 5. Maintain accurate inventory control status on all Claims.

C. Reports

The following reports must be available from the Claims processing function fifteen days after the end of each month:

1. Number of Claims received, paid, denied, and suspended for the previous month by provider type with a reason for the denied or suspended claim.
2. Number and type of services that are prior-authorized (PA) for the previous month (approved and denied).
3. Amount paid to providers for the previous month by provider type.
4. Number of Claims by provider type for the previous month, which exceed processing timelines standards defined by the Department. Claim Prompt Pay reports as defined by ARRA

The Contractor shall show sufficient capacity to support special requests and studies that may be part of the financial and quality systems. The reporting subsystem allows the Contractor to develop various reports to enable Contractor management and the Department to make informed decisions regarding managed care activity, costs and quality.

The Contractor's reporting subsystem shall contain such items as: specifications for a decision support system; capacity to collect, analyze and report performance data sets such as may be required under this Contract; HEDIS performance measures; report on Provider rates, federally required services, reports such as family planning services, abortions, sterilizations and EPSDT services.

Penalties will be assessed against the Contractor for each Encounter record, which is not resubmitted within thirty (30) days of the date the record is returned.

C. Annual Validity Study

The Department will conduct an annual validity study to determine the completeness, accuracy and timeliness of the Encounter data provided by the Contractor.

Completeness will be determined by assessing whether the Encounter data transmitted includes each service that was provided. Accuracy will be determined by evaluating whether or not the values in each field of the Encounter accurately represent the service that was provided. Timeliness will be determined by assuring that the Encounter was transmitted to the Department the month after adjudication. The Department will randomly select an adequate sample which will include hospital claims, provider claims, drug claims and other claims (any claims except in-patient hospital, provider and drug), to be designated as the Encounter Processing Assessment Sample (EPAS). The Contractor will be responsible to provide to the Department the following information as it relates to each Claim in order to substantiate that the Contractor and the Department processed the claim correctly:

- Provider eligibility data;
- Reference data (i.e., diagnosis code, procedure rates, etc.) pertaining to the Claim;
- Edit and audit procedures for the Claim;
- A copy of the remittance advice statement/explanation of benefits;
- A copy of the Encounter Record transmitted to the Department; and

The Department will review each Claim from the EPAS to determine if complete, accurate and timely Encounter data was provided to the Department. Results of the review will be provided to the Contractor. The Contractor will be required to provide a corrective action plan to the

Department within sixty (60) Days if deficiencies are found.

The Contractor shall provide, or arrange for the provision of, health services, including Emergency Medical Services, to the extent services are covered for Members under the then current Kentucky State Medicaid Plan, as designated by the department in administrative regulations adopted in accordance with KRS Chapter 13A and as required by federal and state regulations, guidelines, transmittals, and procedures.

This Appendix was developed to provide, for illustration purposes only, the Contractor with a summary of currently covered Kentucky Medicaid services and to communicate guidelines for the submission of specified Medicaid reports. The summary is not meant to act, nor serve as a substitute for the then current administrative regulations and the more detailed information relating to services which is contained in administrative regulations governing provision of Medicaid services (907 KAR Chapters 1, 3 4, 8, 9, 10, 11, 13, 15 and 17) and in individual Medicaid program services benefits summaries incorporated by reference in the administrative regulations. If the Contractor questions whether a service is a Covered Service or Non-Covered Service, the Department reserves the right to make the final determination, based on the then current administrative regulations in effect at the time of the contract.

Administrative regulations and incorporated by reference Medicaid program services benefits summaries may be accessed by contacting:

Kentucky Cabinet for Health and Family Services
 Department for Medicaid Services
 275 East Main Street, 6th Floor
 Frankfort, Kentucky 40621

Kentucky's Medicaid State Plan, administrative regulations, and incorporated by reference materials are also accessible via the Internet at <http://www.chfs.ky.gov/dms/Regs.htm>.

Kentucky Medicaid covers only Medically Necessary services. These services are considered by the Department to be those which are reasonable and necessary to establish a diagnosis and provide preventive, palliative, curative or restorative treatment for physical or mental conditions in accordance with the standards of health care generally accepted at the time services are provided, including but not limited to services for children in accordance with 42 USC 1396d(r). Each service must be sufficient in amount, duration, and scope to reasonably achieve its purpose. The amount, duration, or scope of coverage must not be arbitrarily denied or reduced solely because of the diagnosis, scope of illness, or condition.

The Contractor shall provide any Covered Services ordered to be provided to a Member by a Court, to the extent not in conflict with federal laws. The Department shall provide written notification to the Contractor of any court-ordered service. The Contractor shall additionally cover forensic pediatric and adult sexual abuse examinations performed by health care professional(s) credentialed to perform such examinations and any physical and sexual abuse examination(s) for any Member when the Department for Community Based Services is conducting an investigation and determines that the examination(s) is necessary.

III. EMERGENCY CARE SERVICES (42 CFR 431.52)

The Contractor must provide, or arrange for the provision of, all covered emergency care immediately using health care providers most suitable for the type of injury or illness in accordance with Medicaid policies and procedures, even when services are provided outside the Contractor's region or are not available using Contractor enrolled providers. Conditions related to provision of emergency care are shown in 42 CFR 438.144.

IV. MEDICAID SERVICES COVERED AND NOT COVERED BY THE CONTRACTOR

The Contractor must provide Covered Services under current administrative regulations. The scope of services may be expanded with approval of the Department and as necessary to comply with federal mandates and state laws. Certain Medicaid services are currently excluded from the Contractor benefits package, but continue to be covered through the traditional fee-for-service Medicaid Program. The Contractor will be expected to be familiar with these Contractor excluded services, designated Medicaid "wrap-around" services and to coordinate with the Department's providers in the delivery of these services to Members.

Information relating to these excluded services' programs may be accessed by the Contractor from the Department to aid in the coordination of the services.

- A. **Health Services Not Covered Under Kentucky Medicaid**
Under federal law, Medicaid does not receive federal matching funds for certain services. Some of these excluded services are optional services that the Department may or may not elect to cover. The Contractor is not required to cover services that Kentucky Medicaid has elected not to cover for Members.

Following are services currently not covered by the Kentucky Medicaid Program:

- Any laboratory service performed by a provider without current certification in accordance with the Clinical Laboratory Improvement Amendment (CLIA). This requirement applies to all facilities and individual providers of any laboratory service;

- Services or supplies in excess of limitations or maximums set forth in federal or state laws, judicial opinions and Kentucky Medicaid program regulations referenced herein; and
- Services for which the Member has no obligation to pay and for which no other person has a legal obligation to pay are excluded from coverage.;

The following services are currently limited by Prior Authorization of the Department for Members. Other than the Prior Authorization of organ transplants, the Contractor may establish its own policies and procedures relating to Prior Authorization.

- Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Special

Services

The Contractor is responsible for providing and coordinating Early and Periodic Screening, Diagnosis and Treatment Services (EPSDT), and EPSDT Special Services, through the primary care provider (PCP), for any Member under the age of twenty-one (21) years.

EPSDT Special Services must be covered by the Contractor and include any Medically Necessary health care, diagnostic, preventive, rehabilitative or therapeutic service that is Medically Necessary for a Member under the age of twenty-one (21) years to correct or ameliorate defects, physical and mental illness, or other conditions whether the needed service is covered by the Kentucky Medicaid State Plan in accordance with Section 1905 (a) of the Social Security Act.

- Transplantation of Organs and Tissue (Must be in compliance with State Plan and 907 KAR 1:350.)
- Other Prior Authorized Medicaid Services

Other Medicaid services limited by Prior Authorization are identified in the individual program coverage areas in Section VI.

VI. Current Medicaid Programs' Services and Extent of Coverage

The Contractor shall cover all services for its Members at the appropriate level, in the appropriate setting and as necessary to meet Members' needs to the extent services are currently covered. The Contractor may expand coverage to include other services not routinely covered by Kentucky Medicaid, if the expansion is approved by the Department, if the services are deemed cost effective and Medically Necessary, and as long as the costs of the additional services do not affect the Capitation Rate.

APPENDIX I. TRANSITION/COORDINATION OF CARE PLANS

Upon receipt of a HIPAA 834 indicating that a Member is transferring from one Medicaid Managed Care Organization (Former MCO) to another MCO (New MCO), the Former MCO shall be responsible to contact the New MCO, the recipient and the recipient's providers in order to transition existing care. A Prior Authorization (PA) shall be honored by the New MCO for 90 days or until the recipient or provider is contacted by the New MCO regarding the PA. If the recipient and provider are not contacted by the New MCO, the existing Medicaid PA shall be honored until expired.

Hospital Admission Prior to the Member's Transition.

If the Member is an in-patient in any facility at the time of transition, the entity responsible for the Member's care at the time of admission shall continue to provide coverage for the Member at that facility, including all Professional Services, until the recipient is discharged from the facility for the current admission. An inpatient admission within fourteen (14) calendar days of discharge for the same diagnosis shall be considered a "current admission." The "same diagnosis" is defined as the first five digits of a diagnosis code.

Outpatient Facility Services and Non-Facility Services

Effective on the Member's Transition date, the New MCO will be responsible for outpatient services both facility and non-facility. Outpatient reimbursement includes outpatient hospital, ambulatory surgery centers, and renal dialysis centers.

Nursing Homes

Eligibility for Long Term Care in a Nursing Facility (NF) includes some financial requirements not needed for basic Medicaid eligibility. When an eligible member enters an NF the facility must receive a Level of Care (LOC) determination to ensure the member meets medical criteria for Nursing Facility. That LOC is passed electronically to the DCBS eligibility worker, triggering the eligibility determination for this additional benefit. That determination can generally be completed within thirty days. *Once LTC eligible, worker entries exempt the member from managed care effective with the next feasible month.* If the worker action is completed prior to cut off (eight business days before the end of the month), managed care ends at the last day of current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for ancillary, physician and pharmaceuticals charges and the Department will reimburse for those services billed by Nursing Facility. Once exempt from Managed Care, the Department will be responsible for all eligible services associated with this recipient.

Waiver Participation

1915(c) Home and Community Based Services Waiver programs are simply added benefits for eligible members; however, the action that exempts those members from being subject to Managed Care resides with the DCBS eligibility

worker. These services require a Level of Care (LOC). The LOC is passed electronically to the DCBS eligibility worker; receipt of the LCO triggers the eligibility worker to complete entries within the eligibility system. Those entries exempt the member from managed care effective the next feasible month. If the worker action is completed prior to cut off (eight business days before the end of the month), managed care ends at the last day of current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for all services except the additional Waiver benefits. The Waiver Services will be paid by the Department as fee for service. Coding in our billing system allows the Wavier Service to be processed during the transition period, once the eligibility worker has completed the necessary entries. Once exempt from Managed Care the Department will be responsible for all services associated with this recipient.

Transplants

Follow up care provided on or after the Member's Transition that is billed outside the Global Charges, will be the responsibility of the New MCO.

Eligibility Issues

For a Member who loses eligibility during an inpatient stay, an MCO is responsible for the care through discharge if the hospital is compensated under a DRG methodology or through the day of ineligibility if the hospital is compensated under a per diem methodology.

<List Other by Name>	The report is to include all Main/Trunk lines that the MCO or the MCO subcontractors maintain. Additional sections of the report are to be added as needed.

Row Label	Description
Number of Calls	Number of calls received including answered, abandoned and blocked.
Number of Calls Abandoned	Calls into the call centers that are terminated by the persons originating the call before answer by a staff person. (URAC standards measure this as the calls that disconnect after 30 seconds when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the 30-second measurement begins after the message/greeting has ended).
% Abandoned Calls	The percentage of calls into the call center that are terminated by the persons originating the call before answer by a staff person. (URAC standards measure this as the percentage of calls that disconnect after 30 seconds when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the 30-second measurement begins after the message/greeting has ended)

Average Speed to Answer (seconds)	The average delay in seconds that inbound telephone calls encounter waiting in the telephone queue of a call center before answer by a staff person (URAC measures the speed of answer starting at the point when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the time it takes to respond to the call – average speed of answer – begins after the message/greeting has ended).
Highest Maximum Delay (minutes)	The one call during the reporting period that had the greatest delay in speed to answer measured in minutes.
% Calls Answered on or before 4th Ring	The percentage of calls answered on or before the fourth ring.
% Calls Receiving Busy Signal	The percentage of incoming telephone calls 'blocked' or not completed because switching or transmission capacity is unavailable, as compared to the total number of calls encountered. Blocked calls usually occur during peak call volume periods and result in callers receiving a busy signal.
% Calls Answered within 30 Seconds	The percentage of calls answered within thirty seconds.
Average Length of Call (minutes)	The average length of all calls answered measured in minutes.
